CONTENTS

INTRODUCTION

- Getting Started with Generator..... 7
- System requirements 9
- Installing Generator 10
- Installing JRun 11
- Uninstalling Generator 12
- What's new in Generator..... 13
- Guide to instructional media..... 16

CHAPTER 1

- Generator Basics 19
- Creating Generator templates 20
- Using the Generator Objects palette and the Generator panel 21
- Identifying symbols in the library 22
- Creating and using variables 23
- Making Generator objects targets of actions 27
- Using buttons in templates 29
- Integrating Generator with Web application server technologies 30

CHAPTER 2

Creating Generator Objects	31
Caching Generator objects (Enterprise Edition feature)	31
Inserting symbols	32
Inserting a Flash movie file	33
Inserting GIF, JPEG, and PNG files	34
Inserting sounds	36
Creating lists and tickers	37
Creating tables	40
Plotting data	42
Creating basic charts	43
Inserting pie charts	48
Inserting stock charts	49
Using the Radio Button object	52

CHAPTER 3

Dynamically Modifying Instances	55
Replacing movie clips and graphic symbol instances	56
Replicating a movie clip or graphic symbol	57
Setting transparency	60
Setting brightness	61
Setting tint	61
Specifying a custom color	62
Transforming movie clips and graphic symbols	65

CHAPTER 4

Using Data Sources	67
Data source format	68
Providing data sources to Generator	72
Using JDBC/ODBC data sources	75
Using URL (HTTP, FTP, or FILE) data sources	77
Using Java data sources	78
Working with cross-platform and localized data sources	82
Processing several data sources in a template	83

CHAPTER 5

Processing Templates with Generator	85
Using the Publish Settings command	86
Previewing, debugging, and exporting templates	88
Choosing online or offline processing	90
Using HTML syntax for Generator templates	91
Processing templates with the Online Generator	93
Processing templates with the Offline Generator	94
Setting Offline Generator options	95
Placing Generator content on the server	98

CHAPTER 6

Setting Administration and Caching Properties...	99
Editing the generator.properties file	100
Administration Servlet and caching feature (Enterprise Edition only)	100
Using the Administration Servlet (Enterprise Edition only)	101
Generating a Transaction Report (Enterprise Edition only)	103
Configuring the Servlet Properties panel	104
Caching (Enterprise Edition only)	105
Enabling and configuring Generator caching	108
Caching examples	112
Generator properties table	115

APPENDIX A

Data Source Summary for Generator Objects...	119
