About This Guide.....	7
-----------------------	---

CHAPTER 1

Macromedia Authoring Solutions for E-learning	11
Introduction	11
Macromedia authoring software	12
Authorware	14
Dreamweaver	16
Dreamweaver UltraDev.....	19
Director Shockwave Studio	20
Flash	23
Generator	26
Macromedia design software	28
Fireworks.....	28
FreeHand	30
Integrated products	32
Learning resources.....	33

CHAPTER 2

Choosing Your Solution	35
Introduction	35
How are you delivering your e-learning?	38
What kinds of media will you use?	45
What is the level of interactivity?	47
What level of data tracking will you need?.....	50
How much content will you create?.....	54
What is your technical skill level?	56
Additional considerations	60
Matching a Macromedia product to your needs	65
Resources	67

CHAPTER 3

Instructional Design for E-learning.....	69
What is instructional design?.....	69
The instructional development process	70
Analyze – Determining the learning need	70
Design – Deciding how to meet your goals	73
Build – Creating learning experiences	77
Evaluate – Measuring effectiveness	78
Effective training principles.....	79
Motivation fuels learning	79
No two people learn in exactly the same way.....	81
People learn what they notice	83
Deeper thinking produces deeper learning	85
Human information-processing is finite	86
Teaching specific subjects	88
Presentation design	93
Summary	97
Resources	98
Author biography	99

CHAPTER 4

Converting Traditional Courses to E-learning	101
How is e-learning different?	101
Should you convert to e-learning?	102
Common pitfalls of converting to e-learning	104
Managing the conversion process	104
Assembling a multitalented team	106
Configuring the team	108
Analyzing your existing course	108
Creating effective learning experiences	110
Converting specific assets	111
Moving slides to the Web	114
Reading assignments and handouts	115
Tests and quizzes	117
Hands-on practice	117
Asking questions	122
Online extras	124
Assembling your components into a course	129
Summary	129
Resources	130
Author biography	130

CHAPTER 5

Developing for Low Bandwidth	131
About bandwidth and multimedia	131
How browsers handle media	133
Selecting your media	134
Optimizing performance	135
Optimizing content	135
Text	136
Graphics	136
Animation	137
Audio	138
Video	140
Authoring guidelines	141
Summary	144
Author biography	145

CHAPTER 6

Options for Data Tracking	147
Why track data?	147
What do you need to track?	148
Learner performance data tracking	149
Detail-level data tracking	151
Data-tracking methods	152
Learning management systems	157
Choosing a data-tracking method	161
Summary	168
Resources	168
Author biography	169

CHAPTER 7

Deploying Your E-learning Course	171
Course components	171
Software required on client computers	173
Hosting your course	175
Deploying your course	178
Configuration issues	179
Deploying software to learner computers	180
Testing your course	181
Summary	183
Resources	183
Author biography	184

INDEX	185
