What are performance monitoring indicators?       1         Why are performances monitoring indicators important?       1         Portfolio management task force findings       2         DED studies       2         Next stops action plan       2         What are the advantages of performance monitoring indicators?       3         How are performances monitoring indicators developed?       4
Why are performances monitoring indicators important?         Portfolio management task force findings         DED studies         Next stops action plan         What are the advantages of performance monitoring indicators?         3         How are performances monitoring indicators developed?         The logical framework       4
Portfolio management task force findings       2         DED studies       2         Next stops action plan       2         What are the advantages of performance monitoring indicators?       3         How are performances monitoring indicators developed?       4
OED studies       2         Next stops action plan       2         What are the advantages of performance monitoring indicators?       3         How are performances monitoring indicators developed?       4         The logical framework       4
Next stops action plan2What are the advantages of performance monitoring indicators?3How are performances monitoring indicators developed?4The logical framework4
What are the advantages of performance monitoring indicators?       3         How are performances monitoring indicators developed?       4         The logical framework       4
How are performances monitoring indicators developed?4The logical framework4
The logical framework 4
Antecedents to the logical framework 5
mportance of clarifying assumptions 7
Hierarchy of objectives and the link to performance indicators
Organizing the hierarchy of objectives 8
Types of performance indicators
Results indicators 11
Risk indicators
Efficacy indicators 14
Ways of measuring performance
Direct measures 15
ndirect measures
Early pointers: intermediate and leading indicators
Quantitative and qualitative measures   16
Measurements scope
Special studies 17
General principles for selecting indicators
Problems with defining indicators 18
Problems with measuring impact
Indicator benchmarks and international comparators How do performance monitoring indicators affect the banks work? 19
Economic and sector work
Project cycle Project identification, preparation, and preappraisal 20
Project identification, preparation, and preappraisal 20 Appraisal and negotiation
Implementation and supervision 21
Evaluation
Performance indicators and project management
Field-level implementers
Implementation unit managers 22
Borrower officials and bank staff
Some related issues 23
Good practice in monitoring and evaluation
Data collection and management 24
Institutional arrangements and capacity building
Feedback from monitoring and evaluation efforts and interpreting
ndicators 25

Relation to loan covenants
