<i>Foreword</i>		<i>xiii</i>
<i>Acknowledgments</i>		<i>xvii</i>
<i>About the Authors</i>		<i>xxi</i>
<i>Acronyms</i>		<i>xxiii</i>
Chapter 1	Summary of Findings and Introduction	1
	Trade and Development in Central America since 1990: Is DR-CAFTA the End of the Road?	3
	The Content of DR-CAFTA: Implications for Market Access and Domestic Reforms	5
	Economic Effects of DR-CAFTA: More Art Than Science	7
	Policy Approaches to Managing the Economic Transition: Ensuring That Poor People Can Benefit from DR-CAFTA	9
	Macroeconomic Policy Implications of DR-CAFTA	13
	Priorities for the Complementary Agenda: Obtaining the Payoff from DR-CAFTA	15

Chapter 2	Trade and Development in Central America since 1990: Is DR-CAFTA the End of the Road?	17
	Trade Policies in Central America, 1990–2003	18
	Results of Trade Policies: Trade and Growth	24
	Outcomes	
	Summary and Conclusions	35
Chapter 3	The Content of DR-CAFTA: Implications for Market Access and Domestic Reforms	39
	Market Access for Goods	41
	Trade in Services	52
	Other Provisions	55
	Provisions to Deepen Regional Integration	65
	Conclusion	66
Chapter 4	Economic Effects of DR-CAFTA: More Art Than Science	73
	Trade Liberalization and the Static Gains from Trade	76
	Complementary Policies and the Dynamic Gains from Trade	113
	Summary	132
	Technical Annex: Gains from Trade for Small Economies and the Underlying Assumptions	135
Chapter 5	Policy Approaches to Managing the Economic Transition: Ensuring That the Poor Can Benefit from DR-CAFTA	153
	Liberalization of Sensitive Agricultural Commodities under DR-CAFTA	154
	Framework for Analyzing Welfare Effects of DR-CAFTA	156
	Expected Impacts of Liberalizing the Sensitive Agricultural Commodities: New Evidence from El Salvador, Guatemala, and Nicaragua	165
	Alternative Approaches to Mitigating the Adverse Impacts of DR-CAFTA	181
	Policies and Investments to Ensure That Poor People Can Benefit from DR-CAFTA	196

	Summary and Conclusion	197
	Annex: Effective Tariff Rates Used in Ex Ante Impact Analyses for El Salvador, Guatemala, and Nicaragua	201
Chapter 6	Macroeconomic Policy Implications of DR-CAFTA	207
	Potential Fiscal Revenue Losses from DR-CAFTA	208
	DR-CAFTA, Business Cycle Synchronization, and Trade Structure	213
	Summary and Policy Recommendations	227
Chapter 7	Obtaining the Payoff from DR-CAFTA: Priorities for the Complementary Agenda	231
	Trade Facilitation	232
	Institutions and Regulations	243
	Innovation and Education	252
	Summary of Priorities for Central American Countries	262
	<i>Bibliography</i>	267
	<i>Index</i>	281
Boxes		
3.1	Costa Rica's Commitments in Telecommunications and Insurance	54
3.2	Controversies in Protecting the Rights of Investors under FTAs	57
3.3	DR-CAFTA and Government Procurement	62
5.1	DR-CAFTA Schedules for Liberalizing Sensitive Agricultural Commodities: The Cases of El Salvador and Honduras	157
5.2	Analyzing the Expected Impacts of Liberalizing Sensitive Agricultural Commodities in El Salvador, Guatemala, and Nicaragua: A Net Consumer–Net Producer Approach	166
5.3	The Distribution of Losses and Gains to Different Sensitive Commodities in Guatemala: The Differential Impacts of Corn Versus Poultry Liberalization	176
5.4	Ensuring That Compensation Measures Are Consistent with WTO Agreements	185

5.5	PROCAMPO: Positive Impacts on Income, Consumption, and Poverty	188
5.6	Conditional Cash Transfer Programs: Strengthening Education, Health, and Nutrition Outcomes among the Poor	190
7.1	The Positive Experience of Reform of the Value-Added Tax System in El Salvador	260

Figures

2.1	Textiles and Apparel Imports into the United States, 1990–2002	23
2.2	Trade Openness as a Percentage of GDP: Deviations from Predicted Values, by Level of Income	27
2.3	Export Diversification Index, 1990–2001	29
2.4	Growth and Trade Openness, 1990s Average	31
3.1	Weighted Tariffs for Sensitive Agricultural Items, U.S. FTAs: NAFTA, Chile, and DR-CAFTA	47
4.1	Unemployment and the Incidence of International Trade in the Long Run	78
4.2	Mexico: Structure of Net Exports, 1981–99	80
4.3	Registered <i>Maquila</i> and Agricultural Workers, Mexico, 1983–2003	81
4.4a–c	Trade and Levels of Development: The Regulatory Environment Does Matter	85
4A.1	Gains from Trade, from A to C	136
5.1	Distribution of Income Sources for Rural Households in Nicaragua, by Quintile, 2001	161
5.2	Net Consumers and Net Producers of Maize in Guatemala, by Quintile, 2000	162
5.3	Net Consumers and Net Producers of Sensitive Agricultural Commodities in Nicaragua, Guatemala, and El Salvador, by Quintile	169
5B.1	Estimated Gains and Losses of Liberalizing Maize, by Consumption Percentile	177
5B.2	Estimated Gains and Losses of Liberalizing Poultry Meat, by Consumption Percentile	177
5.4	Average Estimated Gains (Losses) from DR-CAFTA–related Price Changes in Nicaragua, Guatemala, and El Salvador	179

5.5	Options for Support Programs for Populations Potentially Affected by DR-CAFTA	200
6.1	Business Cycle Synchronization and Trade with the United States	226
6.2	Business Cycle Synchronization and Intra-industry Trade	227
7.1	Deviation from Predicted Levels of Road Access and Quality in Central America	233
7.2	Port Efficiency with Respect to GDP Per Capita	235
7.3	Shipping Cost per 20-foot Container	236
7.4	Maritime Transport Costs from Selected Ports to the United States, as a Share of Export Value	237
7.5	Benchmarking with Respect to GDP Per Capita	239
7.6	Days Needed for Imports to Clear Customs, Selected Countries	240
7.7	Days Needed for Exports to Clear Customs, Selected Countries	241
7.8	Firms Constrained by Customs	242
7.9	Percentage of Firms That Expect to Be Hampered by Customs Procedures When DR-CAFTA Is Implemented	242
7.10	Regulations Index	244
7.11	Number of Days to Register a Firm	245
7.12	International Corruption Rankings of Central American Countries	246
7.13	WBI Governance Indicators for Central America, 2004	247
7.14	Inconsistency and Unpredictability of Regulations, Government Inefficiency, and Bribery	248
7.15	Main Sources of Finance for Investment Capital, by Country	249
7.16	Share of Firms with Loans, International Comparison	249
7.17	El Salvador Firms Reporting Major or Severe Obstacles Related to Finance, by Size of Firm	250
7.18	Do Costa Rica and El Salvador Underperform in Innovation Outputs?	254
7.19	Efficiency of R&D Expenditures Compared with the OECD Countries	256
7.20	Discovery Curve and Central America, 1990s	257

Tables

2.1	Average Tariffs, 1985–2000	19
2.2	Trade Openness	25
2.3	Trade Openness, Exports and Imports	26
2.4	GDP Growth, 1990–2004	30
2.5	Explaining Changes in Growth, 1990s Versus 1980s	32
2.6	Evolution of Inequality in Latin America and the Caribbean	34
3.1	Tariff Reduction Schedule for Sensitive Agricultural Products	42
3.2	Recent Imports (2003) Versus DR-CAFTA Quotas of Sensitive Agricultural Commodities	44
3.3	Sugar Imports to the United States from Central America	45
4.1	Exports to the United States: Potential Effects of Transport Costs and DR-CAFTA, 2000	82
4.2	Changes in Exports as a Result of U.S. Tariff Elimination, Central America	87
4.3	Nicaragua's Economic Structure, 2000	97
4.4	Sectoral Effects of Full Unilateral Trade Liberalization	99
4.5	Factor Price Changes Resulting from Full Trade Liberalization	102
4.6	Value Added and Employment by Sector and Factor, and Sectoral Intermediate Uses	103
4.7	Intersectoral Links between Agriculture and Food Processing	106
4.8	Effects of the DR-CAFTA Agreement on Nicaragua's Economic Sectors	107
4.9	Factor Price Changes Resulting from DR-CAFTA	110
4.10	Decomposing the Sectoral Effects of DR-CAFTA	112
4.11	Decomposing Factor Price Changes Resulting from DR-CAFTA	113
4.12	Fixed-Effects Regressions of the Log of FDI Against Membership in a Free Trade Area and Other Variables	116
4.13	Determinants of International Corruption: Does Trade Really Matter?	122
4.14	Fixed-Effects Panel Regressions, 1970–2000, Five-Year Averages	126
4.15	Treatment Effects Model, 1970–2000, Five-Year Averages	131
4.16	Five-Year Poverty Reduction Effects of DR-CAFTA for Central American Countries	132

4A.1	Costa Rica: Estimated Effects of U.S. Tariff Elimination in Partial Equilibrium	138
4A.2	El Salvador: Estimated Effects of U.S. Tariff Elimination in Partial Equilibrium	139
4A.3	Guatemala: Estimated Effects of U.S. Tariff Elimination in Partial Equilibrium	140
4A.4	Honduras: Estimated Effects of U.S. Tariff Elimination in Partial Equilibrium	141
4A.5	Nicaragua: Estimated Effects of U.S. Tariff Elimination in Partial Equilibrium	142
4A.6	Costa Rica: Estimated Effects of Tariff Elimination on U.S. Imports in Partial Equilibrium	143
4A.7	El Salvador: Estimated Effects of Tariff Elimination on U.S. Imports in Partial Equilibrium	144
4A.8	Guatemala: Estimated Effects of Tariff Elimination on U.S. Imports in Partial Equilibrium	145
4A.9	Honduras: Estimated Effects of Tariff Elimination on U.S. Imports in Partial Equilibrium	146
4A.10	Nicaragua: Estimated Effects of Tariff Elimination on U.S. Imports in Partial Equilibrium	147
4A.11	Summary Statistics of Variables Used by Gould and Gruben in Estimating Growth Effects of Free Trade Agreements, 1960–2002	148
5.1	Tariffs on Key Sensitive Commodities in DR-CAFTA Countries	155
5.2	Consumption Shares of Key Commodity Groups, Nicaragua, 2001	160
5.3	Recent Evidence on Household Consumption Smoothing in Developing Countries	165
5.4	Net Consumers and Net Producers of the Basket of Sensitive Agricultural Commodities in Nicaragua, Guatemala, and El Salvador, by Rural–Urban Location and Quintile	171
5.5	Estimated Gains by Net Consumers and Estimated Losses by Net Producers of the Basket of Sensitive Agricultural Commodities in Nicaragua, Guatemala, and El Salvador, by Rural–Urban Location and Quintile	174
5.6	Average Estimated Gains (Losses) in Nicaragua, Guatemala, and El Salvador, by Rural–Urban Location and Quintile	180 193

5.7	Size of Transfers in Selected Transfer Programs—Decoupled Income Support and Conditional Cash Transfers—in Latin America	193
5A.1	Nominal and Effective Tariffs for Sensitive Commodities in Nicaragua	201
5A.2	Tariff Rates and Levels of Imports of Sensitive Crops in Guatemala, 2001	201
5A.3	Effective Tariff Reduction in El Salvador, 2003	202
6.1	Import Tax Revenues, 2000–1	209
6.2	Alternative Estimates of Fiscal Losses from DR-CAFTA	209
6.3	Alternative Estimates of Fiscal Losses from DR-CAFTA in the First Year	210
6.4	Alternative Estimates of Fiscal Losses from DR-CAFTA, Including Growth Effects	210
6.5	Correlations between Macroeconomic and Fiscal Variables and GDP in Latin American Countries	212
6.6	Revenue Composition of Latin American Tax Systems: Revenues by Source as Share of Total Revenues, Average 1990–2000	213
6.7	Business Cycle Synchronization Using Band-Pass Filter, with Central American Economies Highlighted	216
6.8	Business Cycle Synchronization, Orthogonal to U.S. Business Cycle	217
6.9	Business Cycle Synchronization, Other FTAs, with Members Highlighted	218
6.10	Average Coherence at Business Cycle Frequency, 1995 and 2003	220
6.11	Central America's Trade Structure: Ratio of Bilateral Exports to Total Exports, Average for 1995–2001	222
6.12	Central America's Trade Structure: Ratio of Bilateral Exports to GDP, Average 1995–2001	223
6.13	Intra-Industry Trade Index	225
7.1	Use of Shipping Modes to the United States for the Textiles and Apparel Industry	238
7.2	Banking Systems in Central America, End of 2003	251
7.3	Gross Enrollment Rate at the Secondary Level	259
