Preface

xi

## Part 1 Fundamentals of Managerial Accounting 1

### 1 **Accounting and the Management Process**

*Accounting and the Management Process*

2

### Organizations: Their Objectives and Goals

3

### The Management Process

4

*Planning and Budgeting*

4

*Organizing*

5

*Implementing*

6

*Controlling*

7

### The Accountant in the Organization

8

*The Controller's Office*

9

*The Treasurer's Office*

11

### The Accounting Process

11

*Financial Accounting*

11

*Managerial Accounting*

12

*Accounting Information as an*

15

*Economic Commodity*

15

### Standards of Ethical Conduct

15

### 2 **Cost Classification and Flow**

*Cost Classification and Flow*

25

### Product Costs Versus Period Costs

26

### Cost Classification in a Merchandising Company

29

### Cost Classification in a Service Company

31

### Cost Classification in a Manufacturing Company

34

*Direct Materials*

36

*Direct Labor*

37

*Manufacturing Overhead*

37

*Prime Costs and Conversion Costs*

38

### Total Manufacturing Costs Versus Unit Manufacturing Costs

40

### Manufacturing Cost Flows

41

*Statement of Cost of Goods Manufactured*

42

*Statement of Cost of Goods Manufactured  
and Sold*

43

### Two Product Costing Systems

46

*Job Order Cost Accounting*

46

*Process Cost Accounting*

46

### 3 **Cost Behavior and Estimation**

*Cost Behavior and Estimation*

65

### Cost Behavior Patterns

66

*Variable Costs*

66

*Fixed Costs*

68

*Mixed Costs*

69

*Step Costs*

70

### Causes of Cost Behavior Patterns

72

### The Engineering Approach to Cost Estimation

73

### Cost Estimation from Historical Data

74

*Selection of a Cost Driver*

75

*The Graphic Approach*

76

*The High-Low Approach*

80

*Regression Analysis*

83

### Using Cost Behavior in Reporting Income: The Contribution Format

87

## Part 2

### Cost Accounting Systems 110

### 4 **Job Order Costing**

*Job Order Costing*

112

### Designing a Cost Accounting System

113

<b>Choosing Between Job Order and Process Costing</b>	114	<b>Using Equivalent Units to Calculate Unit Costs and Total Costs</b>	179
<i>Job Order Costing</i>	114	<b>Accounting for Partially Completed Units in Beginning Inventory</b>	184
<i>Process Costing</i>	115	<i>The Moving Average Cost Flow Assumption</i>	186
<b>Calculating the Average Cost per Unit</b>	116	<i>The FIFO Cost Flow Assumption</i>	192
<b>Accounting for Materials Costs</b>	118		
<i>Purchase of Materials</i>	118		
<i>Issue of Materials</i>	119		
<b>Accounting for Labor Costs</b>	122		
<b>Accounting for Manufacturing Overhead Costs</b>	126		
<b>The Predetermined Overhead Rate</b>	127		
<i>Applied Overhead Costs</i>	130		
<i>Actual Overhead Costs</i>	130		
<b>Accounting for Over- and Underapplied Overhead</b>	132		
<i>Causes of Over- and Underapplied Overhead</i>	133		
<i>Reporting Over- or Underapplied Overhead</i>	135		
<b>Accounting for the Cost of Finished Goods and the Cost of Goods Sold</b>	137		
<i>Cost of Finished Goods</i>	138		
<i>Cost of Goods Sold</i>	139		
<b>Preparing Statements of the Cost of Goods Manufactured and Sold</b>	141		
<i>The Statement of Cost of Goods Manufactured</i>	141		
<i>The Statement of Cost of Goods Sold</i>	142		
<b>5</b>			
<b>Process Costing</b>	166		
<b>A Simple Illustration of Process Costing</b>	167		
<b>Identifying Costs with Activities</b>	170		
<b>Accounting for Partially Completed Units in Ending Inventory</b>	174		
<i>Calculating Equivalent Units for Resources Added Uniformly</i>	176		
<i>Calculating Equivalent Units for Resources Added in a Lump</i>	177		
		<b>Part 3</b>	
		<b>Accounting in Managerial Planning Decisions</b>	220
		<b>6</b>	
		<b>Cost-Volume-Profit Analysis</b>	222
		<b>Basic Assumptions of Cost-Volume-Profit Analysis</b>	223
		<b>Basic Approaches to Cost-Volume-Profit Analysis</b>	225
		<i>Equation Approach</i>	225
		<i>Contribution Margin per Unit Approach</i>	226
		<i>Contribution Margin Ratio Approach</i>	228
		<b>The Graphic Approach to Cost-Volume-Profit Analysis</b>	231
		<b>Some Managerial Uses of Cost-Volume-Profit Analysis</b>	234
		<i>Target Profit</i>	234
		<i>Margin of Safety</i>	235
		<i>Effect of a Change in Sales Price</i>	236
		<i>Effect of a Change in Variable Costs</i>	237
		<i>Effect of a Change in Fixed Costs</i>	237
		<i>Effect of a Simultaneous Price and Cost Changes</i>	238
		<b>Multiproduct Cost-Volume-Profit Analysis</b>	241
		<b>Maximizing the Contribution from Scarce Resources</b>	244
		<b>Computerized Cost-Volume-Profit Analysis</b>	247
		<b>Appendix 6—Linear Programming</b>	270
		<i>Formulation of the Problem</i>	272
		<b>Graphic Solution of a Linear Program</b>	273

## Contents

<b>7</b>	<hr/>		
	<i>Planning the Master Budget</i>	277	
	<b>Purposes of the Master Budget</b>	278	
	<i>Strategic Planning</i>	279	
	<i>Coordination of Activities</i>	279	
	<i>Communications of Plans</i>	279	
	<i>Performance Evaluation</i>	280	
	<i>Uses and Abuses of the Master Budget</i>	280	
	<b>An Overview of the Master Budget</b>	280	
	<b>Preparing a Master Budget</b>	283	
	<i>Sales Budget</i>	283	
	<i>Production Budget</i>	286	
	<i>Direct Materials Budget</i>	290	
	<i>Direct Labor Budget</i>	292	
	<i>Manufacturing Overhead Budget</i>	293	
	<i>Ending Inventory Budget</i>	295	
	<i>Selling and Administrative Expense Budget</i>	296	
	<i>Budgeted Income Statement</i>	298	
	<i>Cash Budget</i>	299	
	<i>Budgeted Balance Sheet</i>	300	
	<b>The Master Budget in a Merchandising Company</b>	304	
	<i>Sales Budget</i>	305	
	<i>Purchases Budget</i>	305	
	<i>Selling and Administrative Expense Budget</i>	307	
	<i>Cash Budget</i>	307	
	<i>Budgeted Income Statement</i>	309	
	<i>Budgeted Balance Sheet</i>	309	
	<b>Use of Computerized Financial Planning Models</b>	313	
	<b>New Manufacturing Environment</b>	314	
	<i>Suppliers</i>	315	
	<i>Flexibility in the Manufacturing Process</i>	315	
	<i>Quality</i>	315	
	<i>Benefits of a JIT Inventory System</i>	316	
<b>8</b>	<hr/>		
	<i>Relevant Costs and Management Decisions</i>	352	
	<b>Recurring and Nonrecurring Decisions</b>	353	
	<b>Relevant Costs</b>	354	
	<b>Sunk Costs</b>	354	
	<b>Special Orders and Capacity Utilization</b>	356	
	<i>A Common Pitfall: Unit Fixed Costs</i>	359	
	<i>Other Factors in a Special-Order Decision</i>	359	
	<b>Make-or-Buy Decisions</b>	361	
	<i>The Effect of Production Volume</i>	362	
	<i>Other Factors in a Make-or-Buy Decision</i>	363	
	<b>Adding and Dropping Products</b>	365	
	<b>Sell-or-Process-Further Decisions</b>	367	
	<b>Part 4</b>		
	<b>Accounting in Managerial Control Decisions</b>	398	
<b>9</b>	<hr/>		
	<i>Responsibility Accounting: Segmented Reporting and Direct Costing</i>	400	
	<b>Responsibility Accounting</b>	401	
	<b>Common Patterns for Dividing Responsibility</b>	403	
	<i>Division by Business Function</i>	403	
	<i>Division by Product Line</i>	403	
	<i>Division by Geographic Region</i>	405	
	<b>Financial Responsibility Centers and Their Accounting Needs</b>	405	
	<i>Expense Centers</i>	407	
	<i>Revenue Centers</i>	407	
	<i>Profit Centers</i>	407	
	<i>Investment Centers</i>	408	
	<b>The Principle of Controllability</b>	409	
	<i>Level of Authority and Controllability</i>	410	
	<i>Time Period and Controllability</i>	410	
	<b>Assigning Costs to Organizational Segments: Direct Costs Versus Common Costs</b>	411	
	<b>Preparing Reports for Segments</b>	412	
	<i>Product-Line Reports</i>	413	
	<i>Territory Reports</i>	415	
	<i>Reports by Type of Customer</i>	418	
	<b>Controllability and Segmented Reporting</b>	420	

<b>Assigning Costs to Inventory: Direct Costing Versus Absorption Costing</b>	422	<i>Calculating the Standard Applied Manufacturing Overhead Cost per Unit</i>	507
<b>10</b>		<b>Manufacturing Overhead Variances</b>	508
<i>Standard Costs: Direct Materials and Direct Labor</i>	457	<i>The Budget Variance</i>	508
<b>Uses of Standard Costs</b>	458	<i>The Volume Variance</i>	518
<i>Cost Accounting</i>	459	<b>Causes of Manufacturing Overhead Variances</b>	524
<i>Preparing Budgets</i>	459	<i>Controllable Costs</i>	524
<i>Measuring Performance</i>	459	<i>Allocated Costs</i>	524
<b>Bases of Standard Costs</b>	460	<i>Nonfinancial Measures for Controlling Manufacturing Overhead</i>	525
<i>Currently Attainable Standards</i>	460	<b>Application of Flexible Budgets to Nonmanufacturing Activities</b>	526
<i>Theoretical Standards</i>	460	<b>Manufacturing Overhead Costs in the General Ledger</b>	528
<b>Direct Materials Variances</b>	461	<b>12</b>	
<i>Establishing Standards for Direct Materials</i>	461	<i>Performance Measurement: Revenue Centers and Profit Centers</i>	551
<i>Calculating Variances for Direct Materials</i>	462	<b>Performance Measurement in Revenue Centers</b>	552
<i>Reporting Direct Materials Variances to Management</i>	468	<b>Performance Measurement in Profit Centers</b>	553
<b>Direct Labor Variances</b>	470	<b>Uses of Revenue Variances</b>	554
<i>Establishing Standards for Direct Labor</i>	470	<b>Calculation of Revenue Variances</b>	556
<i>Calculating Variances for Direct Labor</i>	471	<i>Sales Price Variance</i>	556
<i>Reporting Direct Labor Variances to Management</i>	475	<i>Sales Volume Variance</i>	559
<b>Investigating Variances</b>	478	<i>Sales Mix Variance</i>	559
<i>Statistical Quality Control</i>	478	<b>Calculation of Expense and Revenue Variances for Profit Center Managers</b>	566
<i>Managerial Judgment</i>	480	<b>Performance Analysis by Sales Territory, Distribution Channel, and Product Line</b>	570
<b>Standard Costs in the General Ledger</b>	481	<i>Analysis by Territory</i>	571
<b>11</b>		<i>Analysis by Distribution Channel</i>	575
<i>Flexible Budgets and Manufacturing Overhead Costs</i>	501	<i>Analysis by Product</i>	577
<b>Flexible Overhead Budgets</b>	502	<b>13</b>	
<i>Format for the Flexible Budget</i>	503	<i>Performance Measurement: Investment Centers</i>	600
<i>Advantages of the Flexible Budget</i>	504	<b>Return on Investment (ROI)</b>	601
<i>Selecting a Cost Driver</i>	505		
<b>Manufacturing Overhead Standards</b>	506		
<i>Avoiding Seasonal Variations in Cost and Volume</i>	506		
<i>Calculating the Predetermined Overhead Rate</i>	506		

Calculating ROI	602	Calculating Present Values (Discounting)	660
Setting a Budgeted ROI	602	Calculating the Present Value of an Annuity	661
<b>Residual Income (RI)</b>	603	<b>Evaluation of Capital Expenditures</b>	664
Calculating RI	603	New Product Investment	667
Setting Target Rate of Return	605	Machine Replacement	669
<b>The Du Pont Formula</b>	605	<b>The Incremental Approach to Evaluation</b>	669
Return on Sales	605	<b>Time-Adjusted Rate of Return: An Alternate Method of Analysis</b>	672
Asset Turnover	606	Calculating the Time-Adjusted Rate of Return	673
Calculating ROI with the Du Pont Formula	607	Interpolating to Find the Time-Adjusted Rate of Return	675
Using the Du Pont Formula	608	<b>Postaudit of Capital Expenditures</b>	676
<b>Problems in Measuring Earnings for an Investment or Profit Center</b>	609		
Allocation of Corporate Costs	610	<b>15</b>	
Effects of Transfer Prices	612	<b>Further Topics in Capital Expenditure Analysis</b>	691
<b>Problems in Measuring Investment for ROI and RI Computations</b>	612	<b>The Effect of Income Taxes on Capital Expenditures</b>	692
What is Included in Investment?	612	Gain or Loss from Selling Old Equipment	692
How are Included Items Measured?	613	Increased Revenues and Expenses	693
<b>Supplementary Measures of Performance</b>	614	The Depreciation Tax Shield	695
<b>Transfer Prices</b>	617	Including Income Tax Effects in a Capital Expenditure Analysis	699
Market-Based Transfer Prices	618	<b>The Cost of Capital and the Minimum Rate of Return</b>	703
Cost-Based Transfer Prices	624	<b>Ranking Projects by Profitability Index</b>	705
<b>Multinational Transfer Pricing</b>	627	<b>Ranking Projects by Payback Period</b>	710
		Calculating the Payback Period	710
		Weaknesses of the Payback Method	712
		<b>Ranking Projects by Accounting Rate of Return</b>	716
<b>Part 5</b>		<b>16</b>	
<b>Advanced Topics in Managerial Accounting</b>	652	<b>Cost Allocation</b>	740
<b>14</b>		<b>Shortcomings of Plantwide Predetermined Overhead Rates</b>	741
<b>Introduction to Capital Expenditure Analysis</b>	654	<b>Advantages of Activity-Based Predetermined Overhead Rates</b>	743
<b>Capital Expenditures and Long-Range Planning</b>	655	<b>Assigning Service Activity Costs to Production Activities</b>	746
<b>Characteristics of Capital Expenditures</b>	656		
Return on Investment Versus Return of Investment	656		
Discounted Cash Flows	657		
<b>Present Value Analysis</b>	658		
Calculating Future Values	658		

<i>Identifying Service Activities</i>	747	<i>Current Ratio</i>	808
<i>Tracing Overhead Costs to Activities in Which They Were Incurred</i>	748	<i>Acid-Test Ratio</i>	811
<i>Assigning Service Activity Costs to User Production Activities</i>	748	<i>Accounts Receivable Turnover</i>	811
<b>Calculating Activity-Based Predetermined Overhead Rates</b>	753	<i>Average Collection Period</i>	812
<b>Assigning Fixed and Variable Costs Separately</b>	756	<i>Inventory Turnover</i>	813
		<i>Average Selling Period</i>	813
		<i>Times-Interest-Earned Ratio</i>	814
		<i>Debt-to-Equity Ratio</i>	815
		<i>Book Value per Share</i>	816
<b>17</b>	<hr/>	<b>18</b>	<hr/>
<i>Analysis of Financial Statements</i>	778	<i>Statement of Cash Flows</i>	850
<b>Standards for Financial Comparison</b>	779	<b>Uses for Statements of Cash Flows</b>	851
<i>Comparison with Predetermined Standards</i>	780	<b>Definition of Cash</b>	852
<i>Comparison with Past Performance</i>	780	<b>Identifying Cash Flows</b>	853
<i>Comparison with Competitors</i>	780	<b>Preparing a Simple Statement of Cash Flows from the Balance Sheet</b>	855
<b>Preparing Comparative Statements</b>	781	<i>Format for a Statement of Cash Flows</i>	856
<i>Showing Amount and Percentage of Change</i>	781	<b>T Accounts as an Aid in Preparing a Statement of Cash Flows</b>	866
<i>Adjusting for Differences in Size: Common-Size Financial Statements</i>	785	<i>Using T Accounts to Double-Check and Refine Statements of Cash Flows</i>	867
<b>Use of Ratios</b>	793	<i>Using T Accounts to Prepare a Statement of Cash Flows</i>	870
<b>Earning-Power Ratios</b>	795		
<i>Earnings per Share</i>	795	<b>Appendix A</b>	<hr/>
<i>Fully Diluted Earnings per Share</i>	797	<i>Present Value Tables</i>	917
<i>Price-Earnings Ratio</i>	798		
<i>Dividend Payout Ratio</i>	799	<i>Glossary</i>	923
<i>Dividend-Yield Ratio</i>	799		
<i>Return on Total Assets Ratio</i>	800	<i>Index</i>	937
<i>Return on Common Shareholders' Equity</i>	801		
<b>Financial Leverage</b>	804		
<b>Debt-Paying-Ability Ratios</b>	806		
<i>Working Capital</i>	807
