information5. Planning and control of material and labor costsThe standards cost concept. Realistic standards. Standard costs for
5. Planning and control of material and labor costs The standards cost concept. Realistic standards. Standard costs for
Changing standard. Other uses of standard costs. The flow of standard
material and labor cost
6. Planning and control of overhead costs
Introduction. Effective cost control. Overhead cost behavior. Developing 113
budgets. Other budgeting problems. Flexible budgets based
7. Measuring segment profitability
The value segment costs. Overhead costs. Developing variable overhead
rates. Standby and programmed costs. Multiple dimensions of 141
segmentation. Constructing a profit plan. Rate of return on capital
employed. Return on capital for a total company. Measuring divisional
rate of return. Residual income. Long-term vs. short-term performance
8. Planning for profit
The profit planning process. Benefits of profit planning. Management
involvement in profit planning. Aiding particular planning decisions. 189
Constructing the profit planning. Mathematical models in profitability
accounting
9. Capital investment
Obtaining and using capital resources. Changing environment. A different
kind of analysis. The capital budgeting process. Finding attractive 237
investment opportunities. Evaluating financial worth. Decision making.
Post-implementation review
10. Communicating through management reports
Principles of effective management reporting. Integrated reports keyed to 263
organization structure. Model reports. Graphic reporting techniques
11. Pricing for profit
Pricing considerations. Economic theory. Pricing strategies. The
robinson-patman act. Limitations of cost-based pricing. Accounting
systems principles for pricing. Profit contribution analysis of pricing 296

problems. Establishing pools of nonvariable costs. Using formulate as pricing guides. Reporting sales variances	
12. A forward look	
A broader perspective. New information demands. New financial information directions. New management information directions. conclusions
