

INDICE

Part 1	
Accounting: the language of Business, Introduction. The accounting environment, Learning objective, 4 accounting defined, 5, employment opportunities in accounting, 6 public accounting. Private or industrial accounting governmental and other not-for-profit accounting. Managerial accounting versus financial accounting,8 managerial accounting financial accounting. The development of financial accounting standards, 10 American institute of certified public accountings (AICPA). Financial accounting standards board (FASB), Securities and exchange commission (SEC). American accounting association (AAA). Summary, 11. New terms, 12. Questions, 13	4
1 Accounting and its use in business decisions, Learning objectives, 14. Forms of business organizations, 15. Single proprietorship. Partnership. Corporation. Types of business activities performed by business organizations, 16. Financial statements of business organizations, 17 The balance sheet. The income statement. The financial accounting process, 20. The accounting equation. Analysis of transactions summary, 30. New terms, 31 Demonstration problem, 32 questions, exercises, 34. Problems (A), 36 (B), 38 Business decision problems, 41 business situation for discussion, 42	14
Part 2 Processing accounting information, 2 Recording business transactions, 46 Learning objectives, 46. The account, 47. The t-account. Debits and credits. Double-entry procedure. Determining the balance of an account. Rules of debit and credit summarized. The ledger, 53 The accounting process in operations, 53. The journal, 60 The general journal journalizing. Posting. Cross- indexing. Posting and croos-densing-an illustration. Compound journal entries. The trial balance, 66. Summary, 71. New terms, 71. Demonstration problem, 72 questions, 78. Exercise, 78 problems (A), 80 (B), 83 Business decision problem, 86. business situation for discussion, 87	45
3 Adjusting the accounts Learning objectives, 89 The need for adjusting entries, 90 cash versus accrual basis accounting. Classes and types of adjusting entries, P2 adjustments for deferred items, and 94 asset/expense adjustments prepaid expenses and depreciation. Liability/revenue adjustments- unearned revenues. Adjustments for accrued items, 103 asset/revenue adjustments-accrued assets. Liability/expense adjustments-accrued liability. Effects of failing to prepare adjusting entries, 105 Summary, 106 new terms, 107 demonstration problem, 108 question, 110 problems (A), 111 (B), 114 Business decision problem, 116 business situation for discussion, 117	89
4 Completing the accounting cycle: work sheet, closing entries, and classified balance sheet Learning objectives, 119. The accounting cycle summarized 120. The work sheet, 121. The trial balance columns. The adjustment columns.	119

<p>The adjusted trial balance columns. The income statement columns. The balance sheet columns. Preparing financial statements from the work sheet, 129 income statement, and statement of owner's equity. Balance sheet. Journalizing adjusting entries, 131. The closing process, 132. step: 1. closing the revenue accounts (s). Step 2: closing the expense accounts. Steps 3: closing the income summary account. Step 4: closing the owners drawing account. Closing process summarized. Post closing trial balance. The classified balance sheet, 140. Current assets. Property, plant, and equipment. Current liabilities. Long-term liabilities. Summary, 143. Appendix 4-A: reversing entries, 144. Appendix 4-B: ledger accounts after closing process completed 146. New terms, 151. Demonstration problem, 152. Questions, 156. Exercises, 156. Problems (A), 158. (B), 163. Business decision problems, comprehensive review problem, 169. business situation for discussion, 170</p>	
<p>5. Merchandising transactions, introduction to inventories, and classified income statements, Learning objectives, 172. Two income statements compared service company and merchandising company, 173. Sales revenues, 174. Recording gross sales. Recording deductions from gross sales. Reporting net sales in the income statement. Cost of goods sold, 179. Two procedures for accounting for inventories. Purchases of merchandise. Deductions form purchases. Transiting for inventories. Purchases of merchandise. Deductions from purchases. Transportation costs. Merchandise inventories. Determining cost of goods sold. Lack of control under periodic inventory procedure. Classified income statement, 187. Important relationships in the income statement. The work sheet for a merchandising company, 190. Completing the work sheet. Financial statements for a merchandising company. Closing entries. Summary, 196. Appendix: alternative closing procedure, 197. New terms, 200. Demonstration problem, 202. Questions, 208. Exercises, 208. Problems (A), 210. (B), 213. Business decision problems, comprehensive review problem, 216. business situation for discussion,217</p>	212
<p>6. Accounting systems and special journals, Learning objectives, 219. The processing of data manual system, 220, control accounts and subsidiary ledgers, 220. Special journals, 222. Sales journal. Cash receipts journal. Combined sales and cash receipts journal. The purchase journal,. Cash disturbance journal. A combined purchases and cash disbursements journal. General ledger illustrated. The general journal alternative methods of processing data, 241. Manual system. Bookkeeping machine system. Microcomputers and minicomputers. Service bureaus. Time-sharing terminals. Mainframe house computer. Summary, 243. Appendix: electronic data processing the computer, 244. New terms, 246. Demonstration problem, 247. Questions, 250. Exercises, 250. Problems (A), 252. (B), 257. Business decision problems, 261 comprehensive review problems, 262. business situation for discussion, 265</p>	219
<p>Part 3 Assets and liabilities, 7 Control of cash, 268 Learning objectives, 268. Internal control, 269. Protection of assets.</p>	267

<p>Compliance with company policies and federal law. Evaluation of personnel performance. Accuracy of accounting reports. Controlling cash, 273 controlling cash receipts. Controlling cash disbursements. The bank checking account, 276. The signature card. Deposit ticket. Check. Bank statement. Bank reconciliation statement, 280. Certified and cashiers checks. Petty cash funds, 284. Establishing the fund. Operating the fund, replenishing the fund. Cash short and over. Net price method, 286 the voucher system, 288. Procedures for preparing a voucher. Special journals used. Procedures for paying a voucher. Files maintained in a voucher system. Summary, 293. New terms, 294. Demonstration problem, 296. Questions, 301. Exercises, 302. Problems (A), 305. (B), 308. Business decision problems, 311. business situation for discussion, 311</p>	
<p>8 Receivables and payables, Learning objectives, 315. Accounts receivable, 316. The allowance method for recording bad debts. The direct write-off method for recording bad debts. Credit cards. Notes receivable and notes payable, 324. Interest calculations. Determination of maturity date. Accounting for notes in normal business transactions. Dishonored notes. Accruing interest discounting (selling) notes receivable. Short-term financing through notes payable. Long-term mortgage notes payable. Summary, 335. New terms, 336 Demonstration problems, 337. Questions, 339. Exercises, 339. Problems (A), 341. (B), 343. Business decision problems, 346. business situation for discussion, 347</p>	315
<p>9 Measuring and reporting inventories, Learning objectives, 348. Inventories and cost of goods sold, 349. Taking a physical inventory. Importance of proper inventory valuation. Determining inventory cost, 352. Costs included in inventory cost inventory valuation under changing prices. Methods of determining inventory cost. Differences in cost methods summarized. Departures from cost basis of inventory measurement, 361. Net realizable value. Lower-of-cost-or-market method. Changing inventory methods. Estimating inventory. Perpetual inventory procedure, 365. Perpetual inventory cards. Journal entries under perpetual procedure. Summary, 368. New terms, 369 Demonstration problems, 370. Questions, 372. Exercises, 373. Problems (A), 376. (B), 379. Business decision problems, 383. business situation for discussion, 384</p>	348
<p>10 Property, plant and equipment, Learning objectives, 385. Nature of plant assets, 386. Initial recording of plant assets, 386. Land and land improvements. Building. Land and buildings purchased jointly. Machinery. Self-constructed assets. Noncash acquisitions. Gifts of plant assets. Subsidiary plant assets records, 391. Depreciation of plant assets, 392. Nature of depreciation. Recording depreciation. Factors affecting depreciation. Depreciation methods, 394. Straight-line depreciation. Units-of production (output) method. Accelerated depreciation methods. Partial year depreciation. Changes in estimates. Depreciation and financial reporting. 400. A misconception. Costs or market values in the balance sheet. Depreciation and taxes, 401. Capital and revenue expenditures, 402. Expenditures capitalized in asset accounts. Expenditures charged to</p>	385

expense, summary, and 404. New terms, 404 Demonstration problems, 405. Questions, 407. Exercises, 408. Problems (A), 410. (B), 412. Business decision problems, 414. business situation for discussion, 415	
11 Plant asset disposal, natural resources, and intangible assets, Learning objectives, 417. Disposal of plan assets, 418. Sale of plan assets. Retirement of plan assets without sale. Destruction of plan assets. Exchanges of dissimilar plan assets. Removal cost. Natural resources, 424. Depletion. Intangible assets. Patents. Copyrights. Franchises. Trademarks; trade names. Leases. Leasehold improvements. Goodwill. Reporting amortization. Summary, 434. New terms, 435 Demonstration problems, 436. Questions, 438. Exercises, 439. Problems (A), 440. (B), 442. Business decision problems, 445. business situation for discussion, 446	417
12 Payroll accounting, Learning objectives, 448. Objectives of payroll accounting, 448. Internal control over payroll, 449 payroll fraud. Gross earnings of employees, 450. Computing gross earnings. Payroll taxes and deductions, 451. Federal and state income tax. FICA (Social security) taxes. Other payroll deductions. Employee earnings record, 456. Payroll journal, 457. Payroll checking account, 458. Employer Payroll taxes, 459. FICA (Social security) taxes. Federal unemployment tax. State unemployment tax. Remitting withholding, taxes, and deductions. End-of period accruals, 462. Wages and (Social security) taxes. Vacation pay. More efficient methods of payroll accounting, 464. Summary, 464. New terms, 435 Demonstration problems, 436. Questions, 438. Exercises, 439. Problems (A), 440. (B), 442. Business decision problems, 445. Business situation for discussion, 446.	448
Part 4 Accounting theory and partnerships, 13 accounting theory; inflation accounting, 478 Learning objectives, 448. Underlying assumptions, 479. Gong concern continuity). Money measurement. Periodically (time periods). Other basic concepts, 481. General-purpose financial statements. Substance over form. Consistency. Double entry. Articulations. Measurement in accounting, 482. Measuring assets and liabilities measuring changes in assets and liabilities. The major principles, 483. Exchange-price (or cost principle. Matching principle. Revenues recognition principle. Expense and loss recognition principle. Full disclose principle. Modifying conventions (or constraints), 489. The conceptual framework project. Inflation a serious reporting problem. 490. The nature and measurement of inflation. Consequences of ignoring effects of inflation. Accounting pro and con. Constant dollar accounting, 496. Constant dollar accounting pro and con. The FASB requirements, 499. Summary, 500. Appendix: the conceptual framework project, 500. New terms, 508 Demonstration problems, 510. Questions, 512. Exercises, 513. Problems (A), 515. (B), 518. Business decision problems, 520. Business situation for discussion, 521.	477
14 Partnerships accounting, Learning objectives, 523. Partnerships agreements, 524. Characteristic of a partnership, 524. Voluntary association. Mutual agency. Limited life.	523

<p>Unlimited liability. Advantages of partnerships, 524. Unique features in partnership accounting, 526. The partners, capital accounts partners drawing accounts. End-of-period entries. Division of partnership income or loss, 530. Illustrations of distributions of partnership income. Financial statements of a partnership, 534. Partnership income statement. Statements of partner's capital. Partnership balance sheet. Change in partnership personnel, 537. Admission of a new partner. Retirement of a partner. Liquidation of a partnership, 542. Partnership liquidation illustrated. Summary, 547. New terms, 548 Demonstration problems, 549. Questions, 550. Exercises, 550. Problems (A), 553. (B), 557. Business decision problems, 562. business situation for discussion, 563</p>	
<p>Part 5 Corporations, 15 Corporations, formation, administration, and classes of capital stock,572</p> <p>Learning objectives 572. The corporation, 573. Advantages of corporation form of organizations. Disadvantages of the corporation. Incorporating. Articles of incorporation, bylaws. Organization costs. Directing the corporation. Documents, books, and record relating t capital stock, 577. Stockholders ledger. The minute's book. Capital stock authorized and outstanding, 578. Par value and no-par capital stock, 579. Par value stock. No-par stock. No-par stock with a stated value. Other values commonly associated with capital stock, 580. Market value. Book value. Liquidation value. Redemption value. Classes of capital stock, 581. Common stock. Preferred stock. Types of preferred stock. Types of preferred stock, 582. Stock preferred as to dividends. Stock preferred as to assets. Convertible preferred stock. Callable preferred stock. Balance sheet presentation of stock, 585. Stock insurances for cash, 586. Insurance of par value stock for cash. Issuance of no-par stated stock for cash. Issuance of no-par stock without a stated value for cash. Recording capital stock issued by subscription, 588. The stock subscribed account. Issuance by subscription of par value stock. Issuance by subscription of no-par stock with a stated value. Issuance by subscription of no-par stock without a stated value. Balance sheet presentation of subscriptions receivable and stock subscribed. Defaulted subscriptions. Capital stock issued for property or services, 592. Balance sheet presentation of paid-in capital in excess of par (or started) value common or preferred, 593. Book value, 593, book value, 593. Summary, 595. New terms, 595 Demonstration problems, 598. Questions, 600. Exercises, 600. Problems (A), 602. (B), 605. Business decision problems, 608. business situation for discussion, 609</p>	<p>571</p>
<p>16 Corporations: paid-in capital, retained earnings, dividends, and treasury stock,</p> <p>Learning objectives, 611 paid-in (or contributed) capitals, 612. Paid-in capital stock dividends. Paid-in capital and retained learning in the balance sheet, 614. Dividends, 614. Cash dividends. Stock dividends. Recording stock dividend. Stock splits. Legality of dividends. Liquidating dividends. Retained earning's appropriations, 619. Retained earnings appropriations in the balanced sheet. The statement of retained earnings, 621. Treasury stock, 622. Acquisition and reissuance of</p>	<p>611</p>

<p>treasury stock. Treasury stock in the balance sheet. Stockholders equity in the balance sheet. Net income conclusions and exclusions, 625. Extraordinary items. Changes in accounting principle. Prior period adjustments. Accounting for tax effects. Earnings per share, 629. Summary of illustrative financial statements. Possible future change in income statement format, 630. Summary, 631. New terms, 632 Demonstration problems, 633. Questions, 635. Exercises, 636. Problems (A), 638. (B), 641. Business decision problems, 644. business situation for discussion, 646</p>	
<p>17 Bonds payable and bond investment, Learning objectives, 647. Bonds payable, 648. Comparison with stock. Selling (issuing) bonds. Characteristic of bonds. Advantages of issuing debt. Disadvantages of issuing debt. Accounting for bonds. Bond prices and interest rates. Computing bond prices. Discount/premium amortization. Redeeming bonds payable. Serial bonds. Bond redemption or sinking funds. Convertible bonds. Bond investment, 664. Short-term bond investment. Long-term bond investments. Sale of bond investments. Valuation of bond investments. Summary, 667. Appendix: future value and present value, 669. New terms, 673 Demonstration problems, 674. Questions, 676. Exercises, 677. Problems (A), 678. (B), 680. Business decision problems, 682. business situation for discussion, 683</p>	647
<p>18 Stock investment cost, equity, and consolidations, Learning objectives, 684. Cost equity methods, 685. Accounting for short-term stock investment and for long-term stock investment of less than 50%, 685. Cost method for short-term investment and for long-term investment of 20% or less. Subsequent valuation of stock investment under the cost method. The equity method for long-term investment of between 20% and 50%. Accounting for stock investment of more than 50%, 692. Parent and subsidiary corporation eliminations. Consolidated balance sheet at tie of acquisition, 694. Acquisition of subsidiary at book value. Acquisition of subsidiary at a cost above or below book value. Acquisition of less than 100% of subsidiary. Accounting for income, losses and dividends of a subsidiary, 700. Cost method for investment in subsidiaries. Equity method for investment in subsidiaries. Consolidated financial statements at a date after acquisition, 701. Purchase versus pooling on interests, 704. Uses and limitations of consolidated statements, 707. Summary, 707. New terms, 709 Demonstration problems, 709. Questions, 712. Exercises, 712. Problems (A), 714. (B), 716. Business decision problems, 719. business situation for discussion, 720</p>	684
<p>Part 6 Analysis of financial statements, 19 Statement of cash flows and analysis of working capital, 724 Learning objectives, 724. Statements of cash flows, 725, use of the statement of cash flows, 725. Management uses, investor and creditor uses. Information in the statement of cash flows, 726. Net cash flow from operating activities, 727. Statement of cash flow, 728. Step: 1 determining the net cash flow fro operating activities. Stepe2: analyzing the noncurrent accounts. Step 3: arranging information into statement of</p>	

<p>cash flows. Comprehensive illustration, 733. Completing the working paper. The formal statement. Working capital or cash flows, 741. The shift toward cash flow. Analysis of working capital. Summary, 743. New terms, 744 Demonstration problems, 745. Questions, 748. Exercises, 749. Problems (A), 750. (B), 755. Business decision problems, 759. business situation for discussion, 762</p>	723
<p>20 Analysis and interpretation of financial statements, Learning objectives, 763. Objectives of financial statement analysis, 764. Financial statements analysis, 764. Horizontal and vertical analysis: an illustration, 767 analysis of balance sheet. Analysis of statement of income and retained earnings trend percentages, 768. ratio analysis, 770. Liquidity ratios. Equity, or long-term solvency, ratios. Profitability tests. Market test. Final considerations I financial statement analysis, 784. Need for comparable data. Influence of external factors. Impact of inflation. Need for comparative standards. Summary, 787. New terms, 787. Demonstration problems, 789. Questions, 792. Exercises, 793. Problems (A), 794. (B), 800. Business decision problems, 805. business situation for discussion, 806</p>	763
<p>Part 7 Accounting in manufacturing companies, 21 Income measurement in manufacturing companies, 810 Learning objectives, 810. Merchandiser and manufacturer accounting differences, 811. Cost classifications, 811. Manufacturing cost. Nonmanufacturing cost. Product and period costs. Fixed and variable cost. Periodic inventory cost, 816. Accounts used for materials and other inventories. Estimation of inventory cost. The work sheet for a manufacturing company using periodic procedure, 819. Adjustments columns. Manufacturing statement columns. The closing entries,, 823. Closing accounts in the income statement columns. Financial reporting by manufacturing companies, 825. The statement of cost of goods manufactured. The income statements. The balance sheet. Perpetual inventory procedure. The general cost accumulation model, 828. Product and cost flows. Manufacturing cost flows under perpetual inventory procedure illustrated. Use of a work sheet under perpetual procedure. Summary, 835. New terms, 787. Demonstration problems, 789. Questions, 792. Exercises, 793. Problems (A), 794. (B), 800. Business decision problems, 805. business situation for discussion, 806</p>	809
<p>22 Job order and process cost systems, Learning objectives, 858. Job order cost systems, 859. Basic records used in job order systems. Accounting for materials. Accounting for labor. Accounting for manufacturing overhead. Job order costing and example. Process cost systems, 871. Basic system design. Process costing illustration. Summary, 878. New terms, 879. Demonstration problems, 880. Questions, 883. Exercises, 884. Problems (A), 885. (B), 888. Business decision problems, 891. business situation for discussion, 892</p>	858
<p>Part 8 Panning control, and decision making, 23 Control trough standard costs, 896 Learning objectives, 896. Standard costs, 897. Nature of standard costs.</p>	

<p>Computing variances, 898. Materials variances. Labor variances. Overhead variances. Goods completed and sold, 909. Investigating variances from standard, 911. Advantages of using standard costs, 912. Summary, 913. Appendix: applying standard jobs in job order and process cost systems, 914. New terms, 919. Demonstration problems, 919. Questions, 920. Exercises, 921. Problems (A), 922. (B), 925. Business decision problems, 928. business situation for discussion, 929</p>	895
<p>24 Responsibility accounting, segmental analysis, Learning objectives, 931. Responsibility accounting, 932. The concept of control, 933. Responsibility reports, 934. Features of responsibility reports. Responsibility reports, an illustration, 935. Responsibility centers, 938. Expense centers. Profit centers. Investment centers. Segmental analysis, 940. Concepts used in segmental analysis, 941. Direct cost and indirect cost. Net income of a segment, evaluation criteria for a profit center, 942. Investment center analysis, 945. Return on investment (ROI). Residual income. Segmental reporting in external financial statements, 949. Summary, 950. New terms, 951. Demonstration problems, 952. Questions, 953. Exercises, 954. Problems (A), 956. (B), 959. Business decision problems, 962. business situation for discussion, 963</p>	931
<p>25 Budgeting, Learning objectives, 965. The budget for planning and control, 966. Purposes of budgets. Considerations in preparing a budget. Some general principles of budgeting. Behavioral implications of budgets. The master budget, 968. Preparing the planned operating budget at the expected level of operations. Preparing the financial budget. The master budget illustrated 971. Preparing the planned operating budget in units for the lead company. Preparing the planned operating budget in dollars. The planned operating budget illustrated. Flexible operating budgets. Preparing the financial budget for the lead company. The financial budget illustrated. Purchases budget for merchandising company, summary, 986. New terms, 951. Demonstration problems, 952. Questions, 953. Exercises, 954. Problems (A), 956. (B), 959. Business decision problems, 962. business situation for discussion, 963</p>	965
<p>26 Short-term decision making, Learning objectives, 1001. Cost behavior patterns, 1002. Methods for analyzing. Cost. Cost-volume-profit (CVP). Analysis, 1005. Break-even chart. Changing the becks-even margin of safety. Assumptions made in cost volume-profit analysis. Cost-volume-profit analysis illustrated. Calculating break-even for a multiproduct company. Differential analysis, 1014. The nature of fixed costs. Opportunity cost. Applications of differential analysis. Absorption versus direct costing, 1022. Absorption costing. Direct costing. Comparing the two methods. Summary, 1025. New terms, 1026. Demonstration problems, 1028. Questions, 1029. Exercises, 1030. Problems (A), 1033. (B), 1036. Business decision problems, 1039. business situation for discussion, 1041</p>	1001
<p>27 Capital budgeting, long-range planning, Learning objectives, 1045. Capital budgeting defined, 1046. Project selection, a general view, and 1046. Time value of money. Net cash inflow. Project selection: payback period, 1050. Project selection,</p>	1045

unadjusted rate of return, 1052. Project selection, net present value method and the profitability index, 1053. Net present value method. Profitability index. Project selection, the time –adjusted rate of return, 1056. Investment in working capital, 1058. The postaudit, 1059. Summary, 1059. New terms, 1061. Demonstration problems, 1062. Questions, 1063. Exercises, 1063. Problems (A), 1065. (B), 1068. Business decision problems, 1071. business situation for discussion, 1072	
28 Personal and corporate income taxes, Learning objectives, 1074, personal federal income taxes, 1075. Who must file a return? Gross income. Adjusted gross income. Taxable income. Exceptions. Computing tax liability. Capital gains and losses. Tax credits filing the tax return. Comprehensive illustration personal income taxes, 1081. Taxable income. Tax loss carrybacks and carryforwards. Depreciation methods. Used for tax purposes. Income tax allocation, 1086. Permanent differences. Temporary differences. Summary, 1090. New terms, 1091. Demonstration problems, 1093. Questions, 1096. Exercises, 1096. Problems (A), 1098. (B), 1100. Business decision problems, 1102. business situation for discussion, 1102	1074
Appendix A. A set of consolidated financial statements and other financial data for general motors corporation, A-1	
Appendix B International accounting, A-25	
Appendix C Compound interest and annuity tables, A-35	
Index I-1
