

Contents

Part One	Fundamental Concepts	
Chapter 1	The Management Process and Accounting Information	2
	Uses of Accounting Information	5
	Organizational Environment	9
	Professional Environment	10
	Costs and Benefits of Accounting	11
	Managerial Application: The Increasing Importance of Cost Analysis	12
	Organization of the Book	13
	Summary	13
	<i>Appendix 1.1: The Value of Information</i>	14
	<i>Problem 1 for Self-Study</i>	17
	<i>Problem 2 for Self-Study</i>	19
	<i>Questions, Problems, and Cases</i>	20
Chapter 2	Cost Concepts and Behavior	26
	Fundamental Cost Concepts	26
	General Cost Structure	28
	Cost Concepts for Managerial Decision Making	31
	Cost Concepts for Planning and Performance Evaluation	41
	Costs Reported on Income Statements	42
	Managerial Application: Cost Analysis in a Retail Company	45
	Summary	46
	<i>Problem 1 for Self-Study</i>	47
	<i>Problem 2 for Self-Study</i>	49
	<i>Questions, Exercises, Problems, and Cases</i>	52
	<i>Suggested Solutions to Even-Numbered Exercises</i>	63
Part Two	Cost Methods and Systems	65
Chapter 3	Product Costing Methods	66
	Product Costing for Managerial Purposes versus Product Costing for External Financial Reporting	66
	Overview of the Alternatives	67
	Cost Inclusion: Variable versus Full Absorption Costing	68
	Cost Measure: Actual or Normal Cost	77
	Managerial Application: The Impact of New Technology on Product Costing Methods at Borg-Warner	84

Comparison of Product Costs	86
Are Some Accounting Methods Systematically Better Than Others?	87
Summary	89
Problem 1 for Self-Study	90
Problem 2 for Self-Study	93
Questions, Exercises, Problems, and Cases	95
Suggested Solutions to Even-Numbered Exercises	109

Chapter 4	Accounting for Resource Flows: Cost Accumulation	112
	Cost Accumulation by Departments and Cost Allocation to Products	112
	Fundamental Accounting Model of Resource Flows	113
	Overview of Cost Flows	115
	Job and Process Costing Systems	119
	Managerial Application: The Impact of New Technology on Cost Accumulation	124
	Standard Costing	126
	Merchandise Organizations	132
	Service Organizations	134
	Summary	137
	Appendix 4.1: Computing Equivalent Production	139
	Problem 1 for Self-Study	144
	Problem 2 for Self-Study	149
	Problem 3 for Self-Study	153
	Problem 4 for Self-Study	155
	Questions, Exercises, Problems, and Cases	156
	Suggested Solutions to Even-Numbered Exercises	180

Chapter 5	Cost Allocation	184
	The Nature of Common Costs	184
	Purpose of Common Cost Allocations	185
	General Principles of Cost Allocation	189
	Illustrations of Cost Allocation Procedures	190
	Joint Products and By-Products	196
	Marketing and Administrative Expenses	201
	Managerial Application: Cost Allocation Practices	202
	Summary	202
	Appendix 5.1: Reciprocal Method for Allocation of Service Department Costs	203
	Problem 1 for Self-Study	207
	Problem 2 for Self-Study	209
	Problem 3 for Self-Study	210
	Problem 4 for Self-Study	210
	Questions, Exercises, Problems, and Cases	213
	Suggested Solutions to Even-Numbered Exercises	237

Types of Fixed Costs	245
Other Cost Behavior Patterns	247
Cost Estimation Methods	252
Managerial Application: Estimating Cost Behavior	264
Summary	266
<i>Appendix 6.1: Derivation of Learning Curves</i>	268
<i>Problem 1 for Self-Study</i>	270
<i>Problem 2 for Self-Study</i>	271
<i>Questions, Exercises, Problems, and Cases</i>	277
<i>Suggested Solutions to Even-Numbered Exercises</i>	290

Chapter 7

Cost-Volume-Profit Analysis	294
The Cost-Volume-Profit Model	294
Applications of the Cost-Volume-Profit Model	299
Using Sales Dollars as a Measure of Volume	303
Income Taxes	304
Multiproduct Cost-Volume-Profit	304
Managerial Application: Cost Analysis for Chrysler Corporation	305
Simplifications and Assumptions	309
Summary	313
<i>Problem 1 for Self-Study</i>	314
<i>Problem 2 for Self-Study</i>	315
<i>Problem 3 for Self-Study</i>	316
<i>Problem 4 for Self-Study</i>	318
<i>Questions, Exercises, Problems, and Cases</i>	319
<i>Suggested Solutions to Even-Numbered Exercises</i>	337

Chapter 8

Short-Run Decisions and Differential Analysis	342
The Differential Principle	342
Problems in Identifying Costs	344
Pricing Decisions	346
Make-or-Buy Decisions	349
Adding and Dropping Parts of Operations	350
Product Choice Decisions	351
Managerial Application: Differential Analysis in Banking	353
Inventory Management Decisions	356
Managerial Application: Recent Innovations in Inventory Management and Flexible Manufacturing	362
Summary	363
<i>Appendix 8.1: Linear Programming</i>	364
<i>Appendix 8.2: Economic Order Quantity Model</i>	371
<i>Problem 1 for Self-Study</i>	373
<i>Problem 2 for Self-Study</i>	376
<i>Problem 3 for Self-Study</i>	379
<i>Questions, Exercises, Problems, and Cases</i>	380
<i>Suggested Solutions to Even-Numbered Exercises</i>	405

Chapter 9

Long-Run Decisions and Capital Budgeting	410
Capital Budgeting: Investment and Financing Decisions	410

Discounted Cash Flow Methods	411
The Cost of Capital—an Opportunity Cost	416
Sensitivity of Net Present Value to Estimates	417
Complications in Computing Periodic Cash Flows	419
Managerial Application: Investing in Improved Technology	420
Summary	425
Problem 1 for Self-Study	426
Problem 2 for Self-Study	427
Questions, Exercises, Problems, and Cases	436
Suggested Solutions to Even-Numbered Exercises	447

Chapter 10

Capital Budgeting: A Closer Look	450
Alternative Methods for Evaluating Projects	450
Separating Investment and Financing Decisions	459
Leasing Is a Form of Financing	461
Summary	465
Problem 1 for Self-Study	465
Problem 2 for Self-Study	466
Problem 3 for Self-Study	470
Questions, Exercises, Problems, and Cases	471
Suggested Solutions to Even-Numbered Exercises	479

Part Four

Managerial Planning and Performance Evaluation

481

Chapter 11

Planning, Control, and Incentives	482
The Planning and Control Process	482
Motivating Agents	486
Matching the Planning and Control System to Organizational Characteristics	489
Managerial Application: Measuring Division Performance at ITT with Accounting Numbers	494
Responsibility Centers	495
Types of Planning and Control Systems	497
Incentive Compensation Plans	499
Managerial Application: Example of Incentive-Incompatible Compensation Scheme	501
Summary	501
Problem for Self-Study	503
Questions, Problems, and Cases	505

Chapter 12

Operating Budgets	532
Uses of Operating Budgets	532
The Master Budget	533
Incentives for Accurate Forecasts	541
Managerial Application: Budgeting for New Products at 3M	542
Using the Budget for Performance Evaluation and Control	542
Achieved Results versus Flexible Budget	545

<i>Summary</i>	548
<i>Appendix 12.1: Comprehensive Master Budget—Victoria Corporation</i>	549
<i>Appendix 12.2: Incentive Model for Truthful Reporting</i>	556
<i>Problem 1 for Self-Study</i>	559
<i>Problem 2 for Self-Study</i>	559
<i>Questions, Exercises, Problems, and Cases</i>	562
<i>Suggested Solutions to Even-Numbered Exercises</i>	582

Chapter 13	Measuring and Interpreting Variances	588
	Variance Analysis	588
	Responsibility for Variances	589
	Use of Variances in Nonmanufacturing Settings	601
	Variance Analysis in High-Technology Companies	602
	<i>Summary</i>	602
	<i>Problem for Self-Study</i>	605
	<i>Questions, Exercises, Problems, and Cases</i>	605
	<i>Suggested Solutions to Even-Numbered Exercises</i>	618

Chapter 14	Measuring and Interpreting Variances: Additional Topics	622
	Fixed Manufacturing Cost Variances	622
	Production Volume Does Not Equal Sales Volume	626
	Materials Purchased and Used Are Not Equal	633
	Mix Variances	634
	Variance Investigation Models	636
	<i>Summary</i>	640
	<i>Appendix 14.1: Standard Costs</i>	641
	<i>Problem 1 for Self-Study</i>	649
	<i>Problem 2 for Self-Study</i>	650
	<i>Problem 3 for Self-Study</i>	651
	<i>Questions, Exercises, Problems, and Cases</i>	653
	<i>Suggested Solutions to Even-Numbered Exercises</i>	667

Chapter 15	Divisional Performance Measurement and Control	674
	Divisional Organization and Performance	674
	Return on Investment as the Performance Measure	677
	Transfer Pricing: Measuring Division Revenue	677
	Measuring Divisional Operating Costs	685
	Measuring the Investment in Divisions	688
	Contribution Approach to Divisional Reporting	689
	Residual Income	694
	Managerial Application: Relative Performance Evaluation	695
	<i>Summary</i>	697
	<i>Problem 1 for Self-Study</i>	699
	<i>Problem 2 for Self-Study</i>	699
	<i>Problem 3 for Self-Study</i>	701
	<i>Problem 4 for Self-Study</i>	702
	<i>Questions, Exercises, Problems, and Cases</i>	703
	<i>Suggested Solutions to Even-Numbered Exercises</i>	722

Chapter 16	Synthesis: Managerial Accounting and External Reporting _____	728
	Illustration	728
	Different Data for Different Purposes	738
	Summary	744
	Questions, Problems, and Cases	745
Chapter 17	Overview of Financial Statements _____	780
	Overview of Business Activities	780
	Overview of Principal Financial Statements	781
	The Balance Sheet—Measuring Financial Position	782
	The Income Statement—Measuring Operating Performance	796
	The Statement of Cash Flows	806
	Other Items in External Financial Reports	808
	Summary	810
	Problem for Self-Study	811
	Questions, Exercises, Problems, and Cases	812
	Suggested Solutions to Even-Numbered Exercises	823
Chapter 18	Analysis of Financial Statements _____	826
	Objectives of Financial Statement Analysis	826
	Usefulness of Ratios	827
	Analysis of Profitability	830
	Analysis of Risk	843
	Limitations of Ratio Analysis	851
	Summary	854
	Problem 1 for Self-Study	854
	Problem 2 for Self-Study	858
	Questions, Exercises, Problems, and Cases	859
Appendix	Compound Interest Examples and Applications _____	878
	Future Value	878
	Present Value	879
	Changing the Compounding Period: Nominal and Effective Rates	879
	Annuities	881
	Perpetuities	891
	Implicit Interest Rates: Finding Internal Rates of Return	892
	Compound Interest and Annuity Tables	896
Glossary		901
Index		921
