Contents

About the Authors vi
Foreword by Philip E. Crosby ix
Preface xxi

PART ONE
INTRODUCTION TO
OPERATIONS MANAGEMENT

1. Operations and Productivity 1

Global Company Profile: Whirlpool 2
What is Operations Management? 4
The Heritage of Operations Management 4
Why Study OM? 6
What Operations Managers Do 7
How This Book Is Organized 8
Organizing to Produce Goods and Services 8
Where Are the OM Jobs? 10
Exciting New Trends in Operations Management 10
Operations in the Service Sector 12
Differences between Goods and Services 12
Growth of Services 14
Service Pay 14
The Productivity Challenge 15
Productivity Measurement 17
Productivity Variables 19
Productivity and the Service Sector 21
The Challenge of Social Responsibility 22
Summary 22 • Key Terms 23 • Solved Problems 23 • Internet Exercises for Operations and Productivity 24 • Discussion Questions 24 • Critical Thinking Exercise 25 • Problems 25 • Case Study: National Air Express 27 • Bibliography 27 • Internet Resources 27 •

2. Operations Strategy for Competitive Advantage 29

Global Company Profile: Komatsu 30
Identifying Missions and Strategies 32
Mission 32
Strategy 33
Achieving Competitive Advantage Through Operations 34
Competing on Differentiation 34
Competing on Cost 35
Competing on Response 36
Ten Strategic OM Decisions 37
Issues in Operations Strategy 40
Research 40
Preconditions 41
Dynamics 42
Strategy Development and Implementation 43
Identify Critical Success Factors 43
Build and Staff the Organization 45
Integrate OM with Other Activities 45

Summary 47 • Key Terms 47 • Solved Problems 47 • Internet Exercises for Operations Strategy 48 • Discussion Questions 48 • Critical Thinking Exercise 48 • Problems 48 • Case Study: Minit-Lube, Inc. 49 • Case Study: Global Strategy at Motorola 49 • CD-ROM Video Case 1: Strategy at Regal Marine 50 • Internet Case Study 51 • Bibliography 51 • Internet Resources 52

3. Operations in a Global Environment 53

Global Company Profile: Boeing 54
Why Global Operations are Important 56
Achieving Global Operations 60
Global Product Design 60

Global Process Design and Technology 60
Global Facility Location Analysis 60
Impact of Culture and Ethics 63
Global Issues in Service Operations 64
Managing Global Service Operations 65
Global Operations Strategies 66
International Strategy 66
Multidomestic Strategy 67
Global Strategy 68
Transnational Strategy 68

Summary 69 • Key Terms 69 • Using Excel OM to Solve Location Problems 69 • Using POM for Windows for Location Analysis 70 • Internet Exercises for Operations in a Global Environment 70 • Discussion Questions 71 • Critical Thinking Exercise 71 • Problems 71 • Case Study: International Operations at General Motors 73 • Internet Case Study 74 • Bibliography 74 • Internet Resources 74

4. Forecasting 75

Global Company Profile: Tupperware Corporation 76
What is Forecasting? 78
Forecasting Time Horizons 78
The Influence of Product Life Cycle 79
Types of Forecasts 79
The Strategic Importance of Forecasting 79
Human Resources 80
Capacity 80
Supply-Chain Management 80
Seven Steps in the Forecasting System 80
Forecasting Approaches 81
Overview of Qualitative Methods 81
Overview of Quantitative Methods 82
Time-Series Forecasting 82
Decomposition of a Time Series 82
Naive Approach 84
Moving Averages 84
Exponential Smoothing 86
Exponential Smoothing with Trend Adjustment 90
Trend Projections 93
Seasonal Variations in Data 96
Cyclical Variations in Data 100
Associative Forecasting Methods: Regression and Correlation Analysis 101
Using Regression Analysis to Forecast 101
Standard Error of the Estimate 103
Correlation Coefficients for Regression Lines 104
Multiple-Regression Analysis 106
Monitoring and Controlling Forecasts 107
Adaptive Smoothing 109
Focus Forecasting 109
Forecasting in the Service Sector 110

Summary 110 • Key Terms 112 • Using Excel Spreadsheets in Forecasting 112 • Using POM for Windows in Forecasting 113 • Solved Problems 114 • Internet Exercises for Forecasting 116 • Discussion Questions 116 • Critical Thinking Exercise 116 • Problems 116 • Data Base Application 125 • Case Study: Southwestern University: (A) 126 • Case Study: North-South Airline 127 • Internet Case Studies 128 • Bibliography 128 • Internet Resources 128

PART TWO DESIGNING OPERATIONS

5. Design of Goods and Services 129

Global Company Profile: Regal Marine 130
Goods and Services Selection 132
Project Strategy Options Support Competitive Advantage 132
Generation of New Product Opportunities 133
Product Life Cycles 134
Life Cycle and Strategy 136
Product-by-Value Analysis 137
Product Development 137
Product Development System 137
Quality Function Deployment (QFD) 139
Organizing for Product Development 141
Manufacturability and Value Engineering 142
Issues for Product Design 143
Robust Design 143
Modular Design 143
Computer-Aided Design 143

Value Analysis 144
Environmentally Friendly Designs 144
Time-Based Competition 146
Purchase of Technology for Acquiring a Firm 147
Joint Ventures 148
Alliances 148
Defining the Product 149
Make-or-Buy Decisions 151
Group Technology 151
Documents for Production 152
Service Design 153
Documents for Services 156
Application of Decision Trees to Product Design 157
Transition to Production 158

Summary 159 • Key Terms 159 • Solved Problems 160 • Internet Exercises for Design of Goods and Services 161 • Discussion Questions 161 • Critical Thinking Exercise 162 • Problems 162 • Case Study: DeMar's Product Strategy 164 • CD-ROM Video Case 2: Product Design at Regal Marine 164 • Bibliography 165 • Internet Resources 165

6. Managing Quality 167

Global Company Profile: Motorola 168
Quality and Strategy 170
Defining Quality 171
Implications of Quality 172
Malcolm Baldrige National Quality Award 172
Cost of Quality 172
International Quality Standards 173
Total Quality Management 174
Continuous Improvement 174
Employee Empowerment 175
Benchmarking 176
Just-in-Time (JIT) 177
Taguchi Concepts 178
Knowledge of TQM Tools 178
Tools of TQM 179
Check Sheets 179
Scatter Diagrams 179
Cause-and-Effect Diagram 181
Pareto Charts 182
Flow Charts 183
Histogram 183
Statistical Process Control (SPC) 183
The Role of Inspection 183
When and Where to Inspect 184
Source Inspection 185
Service Industry Inspection 186
Inspection of Attributes vs. Variables 186
TQM in Services 186

Summary 189 • Key Terms 189 • Internet Exercises for Managing Quality 189 • Discussion Questions 189 • Critical Thinking Exercise 190 • Problems 190 • Case Study: Southwestern University: (B) 191 • Case Study: Westover Electrical, Inc. 193 • CD-ROM Video Case 3: Quality at the Ritz-Carlton Hotel Company 195 • Internet Case Studies 195 • Bibliography 196 • Internet Resources 196

Supplement 6: Statistical Process Control 197

Statistical Process Control (SPC) 198
Control Charts for Variables 200
The Central Limit Theorem 201
Setting Mean Chart Limits ($\bar{x}$-Charts) 203
Setting Range Chart Limits (R-Charts) 205
Using Mean and Range Charts 206
Control Charts for Attribtutes 207
Managerial Issues and Control Charts 212
Process Capability 213
Acceptance Sampling 214
Operating Characteristic Curve 214
Average Outgoing Quality 216

Summary 217 • Key Terms 217 • Using Excel OM for SPC 217 • Using POM for Windows 218 • Solved Problems 218 • Internet Exercises for Statistical Process Control 220 • Discussion Questions 220 • Problems 221 • Data Base Application 225 • Case Study: Bayfield Mud Company 227 • Case Study: SPC at the Gazette 228 • Internet Case Study 229 • Bibliography 229 • Internet Resources 230

7. Process Strategy and Capacity Planning 231

Global Company Profile: Dell Computer Corp. 232

Four Process Strategies 234

Process Focus 235

Repetitive Focus 236

Product Focus 238

Mass Customized Focus 239

Comparison of Process Choices 241

Process Analysis and Design 243

Flow Diagrams 244

Time-Function Mapping 244

Process Charts 244

Service Blueprinting 245

Service Process Design 247

Customer Interaction and Process Design 247

More Opportunities to Improve Service Processes 248

Process Reengineering 249

Environmentally Friendly Processes 250

Selection of Equipment and Technology 251

Capacity 251

Defining Capacity 252

Forecasting Capacity Requirements 253

Applying Decision Trees to Capacity Decisions 254

Managing Demand 255

Break-Even Analysis 256

Single-Product Case 259

Multiproduct Case 260

Strategy-Driven Investments 261

Investment, Variable Cost, and Cash Flow 262

Net Present Value 262

Summary 265 • Key Terms 266 • Using Excel OM for Break-Even Analysis 266 • Solved Problems 267 • Internet Exercises for Process Strategy and Capacity Planning 268 • Discussion Questions 268 • Critical Thinking Exercises 269 • Problems 269 • Case Study: Southwestern University: (C) 274 • Case Study: Capacity Planning at Shouldice Hospital 275 • CD-ROM Video Case 4: Process Strategy at Wheeled Coach 277 • Bibliography 277 • Internet Resources 278

Supplement 7: Operations Technology, the Internet, and ERP 279

The Internet 280

Design Technology 282

Computer-Aided Design (CAD) 282

Standard for the Exchange of Product Data (STEP) 283

Computer-Aided Manufacturing (CAM) 283

Virtual Reality Technology 283

Production Technology 284

Numerical Control 284

Process Control 285

Vision Systems 285

Robots 286

Automated Storage and Retrieval System (ASRS) 286

Automated Guided Vehicle (AGV) 287

Flexible Manufacturing System (FMS) 287

Computer-Integrated Manufacturing (CIM) 287

Technology in Services 287

Information Sciences in Operations 288

Transaction Processing 289

Management Information System (MIS) 291

Artificial Intelligence 291

Enterprise Resource Planning (ERP) 292

Advantages and Disadvantages of ERP Systems 294

ERP in the Service Sector 294

Summary 295 • Key Terms 295 • Internet Exercises for Operations Technology, the Internet and ERP 296 • Discussion Questions 296 • Problems 296 • Case Study: Ikon's Attempt at ERP 297 • Case Study: Rochester Manufacturing Corporation 298 • Bibliography 298 • Internet Resources 298

8. Location Strategies 299

Global Company Profile: Federal Express 300

The Strategic Importance of Location 302

Factors that Affect Location Decisions 303

Labor Productivity 304

Exchange Rates 306

Costs 306

Attitudes 306

Proximity to Markets 306
Proximity to Suppliers 307
Proximity to Competitors (Clustering) 307
Methods of Evaluating Location Alternatives 308
The Factor-Rating Method 308
Locational Break-Even Analysis 309
Center-of-Gravity Method 311
Transportation Model 313
Service Location Strategy 314
How Hotel Chains Select Sites 315
The Telemarketing and Internet Industries 316
Geographic Information Systems 317

Summary 317 • Key Terms 318 • Using Excel OM to Solve Location Problems 318 • Using POM for Windows 318 • Solved Problems 319 • Internet Exercises for Location Strategies 321 • Discussion Questions 321 • Critical Thinking Exercise 321 • Problems 321 • Data Base Application 327 • Case Study: Southwestern University: (D) 328 • Case Study: Southern Recreational Vehicle Company 330 • Internet Case Study 331 • Bibliography 331 • Internet Resources 331

9. Layout Strategy 333

Global Company Profile: McDonald's 334
The Strategic Importance of Layout Decisions 336
Types of Layout 336
Fixed-Position Layout 337
Process-Oriented Layout 339
Expert Systems in Layout 345
Work Cells 345
The Focused Work Center and the Focused Factory 347
Office Layout 348
Retail Layout 350
Servicescapes 351
Warehousing and Storage Layouts 352
Cross-Docking 352
Random Stocking 353
Customizing 353
Repetitive and Product-Oriented Layout 354
Assembly Line Balancing 356

Summary 360 • Key Terms 360 • Using Excel OM for Layout Calculations 361 • Using POM for Windows for Layout Design 361 • Solved Problems 362 • Internet Exercises for Layout Strategy 365 • Discussion Questions 365 • Critical Thinking Exercise 366 • Problems 366 • Data Base Application 373 • Case Study: DesMoines National Bank 373 • Case Study: State Automobile License Renewals 375 • CD-ROM Video Case 5: Facility Layout at Wheeled Coach 376 • Internet Case Studies 377 • Bibliography 377 • Internet Resources 377

10. Human Resources and Job Design 379

Global Company Profile: Southwest Airlines 380
Human Resource Strategy for Competitive Advantage 382
Constraints on Human Resources Strategy 382
Labor Planning 383
Employment-Stability Policies 383
Work Schedules 384
Job Classifications and Work Rules 385
Job Design 385
Labor Specialization 385
Job Expansion 386
Psychological Components of Job Design 387
Self-Directed Teams 388
Motivation and Incentive Systems 390
Economics and Work Methods 391
The Visual Workplace 398
Labor Standards 398

Summary 399 • Key Terms 400 • Solved Problems 400 • Internet Exercises for Human Resource and Job Designs 402 • Discussion Questions 402 • Critical Thinking Exercise 402 • Problems 402 • Case Study: The Fleet That Wanders 403 • Case Study: Lincoln Electric: Incentive Pay System 404 • Bibliography 405 • Internet Resources 405

Supplement 10: Work Measurement 407

Labor Standards and Work Measurement 408
Historical Experience 409
Time Studies 409
Predetermined Time Standards 415
Work Sampling 416

Summary 419 • Key Terms 419 • Solved Problems 420 • Internet Exercises for Work Measurement 422 • Discussion Questions 422 • Problems 423 • Case Study: Chicago Southern Hospital 428 • Internet Case Study 428 • Bibliography 429 • Internet Resources 429

PART THREE MANAGING OPERATIONS

11. Supply-Chain Management 431

Global Company Profile: Volkswagen 432
The Strategic Importance of the Supply Chain 434
Global Supply-Chain Issues 435
Purchasing 436
Manufacturing Environments 437
Service Environments 437
Make-or-Buy Decisions 437
Supply-Chain Strategies 438
Many Suppliers 438
Few Suppliers 439
Vertical Integration 440
Keisetsu Networks 441
Virtual Companies 441
Vendor Selection 442
Vendor Evaluation 442
Vendor Development 442
Negotiations 442
Managing the Supply Chain 444
Internet Purchasing 446
Materials Management 448
Distribution Systems 448
Benchmarking Supply-Chain Management 449

Summary 450 • Key Terms 450 • Internet Exercises for Supply-Chain Management 450 • Discussion Questions 450 • Critical Thinking Exercise 451 • Problems 451 • Case Study: Factory Enterprises, Inc. 452 • Case Study: Thomas Manufacturing Company 452 • CD-ROM Video Case 6: Supply-Chain Management at Regal Marine 453 • Internet Case Studies 454 • Bibliography 454 • Internet Resources 455

Supplement 11: E-commerce and Operations Management 457

Electronic Commerce 458
E-commerce Definitions 458
Security in the E-commerce Environment 459
Economics of E-commerce 460
Product Design 460
E-Procurement 461
On-line Catalogues 461
RFQs and Bid Packaging 462
On-line Auctions 462
Inventory Tracking 463
Inventory Reduction 464
Just-in-Time Delivery for E-commerce 464
Scheduling and Logistics Improvements 465
Coordinated Pickup and Delivery 465
Logistics Cost Reduction 465

Summary 466 • Key Terms 466 • Internet Exercises for E-commerce and Operations 466 • Discussion Questions 466 • Problems 466 • Case Study: Cisco's E-commerce Connection 467 • Bibliography 468 • Internet Resources 469

12. Inventory Management 471

Global Company Profile: Green Gear Cycling 472
Functions of Inventory 474
Types of Inventory 474
Inventory Management 475
ABC Analysis 475
Record Accuracy 477
Cycle Counting 477
Control of Service Inventories 478
Inventory Models 479
Independent versus Dependent Demand 479
Holding, Ordering, and Setup Costs 479
Inventory Models for Independent Demand 480
The Basic Economic Order Quantity (EOQ) Model 481
Minimizing Costs 481
Reorder Points 487
Production Order Quantity Model 489
Quantity Discount Models 492

Probabilistic Models with Constant Lead Time 495
Fixed Period Systems 498

Summary 499 • Key Terms 500 • Using Excel OM for Inventory 500 • Using POM for Windows to Solve Inventory Problems 502 • Solved Problems 502 • Internet Exercises for Inventory Management 503 • Discussion Questions 504 • Critical Thinking Exercise 504 • Problems 504 • Case Study: Southwestern University: (E) 510 • Case Study: Mayo Medical Center 511 • Case Study: Sturdivant Sound Systems 512 • CD-ROM Video Case 7: Inventory Control at Wheeled Coach 513 • Internet Case Studies 513 • Bibliography 513 • Internet Resources 514

Supplement 12: Just-in-Time Systems 515

Just-in-Time Philosophy 516
Suppliers 518
Goals of JIT Partnerships 519
Concerns of Suppliers 520
JIT Layout 521
Distance Reduction 521
Increased Flexibility 521
Impact on Employees 521
Reduced Space and Inventory 522
Inventory 522
Reduce Variability 522
Reduce Inventory 523
Reduce Lot Sizes 523
Reduce Setup Costs 523
Scheduling 525
Level Schedules 525
Kanban 526
Quality 529
Employee Empowerment 529
Lean Production 529
JIT in Services 530

Summary 531 • Key Terms 531 • Solved Problem 531 • Internet Exercises for Just-in-Time Systems 532 • Discussion Questions 532 • Problems 533 • Case Study: Mutual Insurance Company of Iowa 534 • Bibliography 536 • Internet Resources 536

13. Aggregate Planning 537

Global Company Profile: Anheuser-Busch 538
The Planning Process 540
The Nature of Aggregate Planning 541
Aggregate Planning Strategies 543
Capacity Options 544
Demand Options 545
Mixing Options to Develop a Plan 546
Methods for Aggregate Planning 547
Graphical and Charting Methods 547
Mathematical Approaches to Planning 551
Comparison of Aggregate Planning Methods 554
Aggregate Planning in Services 555
Restaurants 555
Miscellaneous Services 555
National Chains of Small Service Firms 556
Airline Industry 556
Hotel Industry 556
Hospitals 557

Summary 558 • Key Terms 558 • Using Excel OM for Aggregate Planning 558 • Using POM for Windows for Aggregate Planning 559 • Solved Problems 559 • Internet Exercises for Aggregate Planning 562 • Discussion Questions 562 • Critical Thinking Exercise 562 • Problems 562 • Data Base Application 567 • Case Study: Southwestern University: (F) 568 • Case Study: Andrew-Carter, Inc. 569 • Internet Case Study 570 • Bibliography 570 • Internet Resources 570

14. Material Requirements Planning (MRP) 571

Global Company Profile: Collins Industries 572
Dependent Inventory Model Requirements 574
Master Production Schedule 575
Bills of Material 577
Accurate Inventory Records 580
Purchase Orders Outstanding 580
Lead Time for Each Component 580
MRP Structure 580
MRP Management 586
MRP Dynamics 586
MRP and JIT 586

Lot-Sizing Techniques 587
Extensions of MRP 591
Closed-Loop MRP 591
Capacity Planning 592
Material Requirements Planning II (MRP II) 593
Enterprise Resource Planning (ERP) 594
MRP in Services 595
Distribution Resource Planning (DRP) 596
DRP Structure 597
Allocation 598

Summary 558 • Key Terms 558 • Using Excel OM for MRP 558 • Using POM for Windows to Solve MRP Problems 600 • Solved Problems 600 • Internet Exercises for MRP 603 • Discussion Questions 603 • Critical Thinking Exercise 603 • Problems 603 • Data Base Application 609 • Case Study: Auto Parts, Inc. 609 • Case Study: Ruch Manufacturing 610 • CD-ROM Video Case 8: MRP at Wheeled Coach 611 • Internet Resources 612

15. Short-Term Scheduling 613

Global Company Profile: Delta Airlines 614
The Strategic Importance of Short-Term Scheduling 616
Scheduling Issues 616
Forward and Backward Scheduling 618
Scheduling Criteria 618
Scheduling Process-Focused Work Centers 619
Loading Jobs in Work Centers 620
Input-Output Control 620
Gantt Charts 621
Assignment Method 623
Sequencing Jobs in Work Centers 626
Priority Rules for Dispatching Jobs 626
Critical Ratio 630
Sequencing N Jobs on Two Machines: Johnson's Rule 630
Limitations of Rule-Based Dispatching Systems 632
Finite Scheduling 632
Theory of Constraints 633
Bottleneck Work Centers 634
Repetitive Manufacturing 635
Scheduling for Services 637
Scheduling Nurses with Cyclical Scheduling 638

Summary 639 • Key Terms 640 • Using Excel OM for Short-Term Scheduling 640 • Using POM for Windows to Solve Scheduling Problems 642 • Solved Problems 642 • Internet Exercises for Short-Term Scheduling 645 • Discussion Questions 645 • Critical Thinking Exercise 645 • Problems 646 • Data Base Application 651 • Case Study: Accountfree, Inc. 652

16. Project Management 655

Global Company Profile: Bechtel Group 656
The Strategic Importance of Project Management 658
Project Planning 658
The Project Manager 659
Work Breakdown Structure 660
Project Scheduling 661
Project Controlling 663
Project Management Techniques: PERT and CPM 663
The Framework of PERT and CPM 663
Activities, Events, and Networks 664
Dummy Activities and Events 666
PERT and Activity Time Estimates 667
Critical Path Analysis 668
The Probability of Project Completion 672
Case Study of PERT: Anderson-Touche Consulting Services 673
Cost-Time Trade-Offs and Project Crashing 677
A Critique of PERT and CPM 679

Summary 680 • Key Terms 680 • Using Excel OM for Project Management 680 • Using POM for Windows for PERT/CPM 681 • Solved Problems 681 • Internet Exercises for Project Management 684 • Discussion Questions 685 • Critical Thinking Exercise 685 • Problems 685 • Data Base Application 692 • Case Study: Southwestern University: (G) 693 • Case Study: Shale Oil Company 694 • Internet Case Studies 695 • Bibliography 695 • Internet Resources 696

17. Maintenance and Reliability 697

Global Company Profile: NASA 698
The Strategic Importance of Maintenance and Reliability 700
Reliability 701
Improving Individual Components 701
Providing Redundancy 703
Maintenance 704
Implementing Preventive Maintenance 704
Increasing Repair Capabilities 708
Total Productive Maintenance 709
Techniques for Establishing Maintenance Policies 710

Summary 710 • Key Terms 710 • Using POM for Windows to Solve Reliability Problems 710 • Solved Problems 711 • Internet Exercises for Maintenance and Reliability 711 • Discussion Questions 712 • Critical Thinking Exercise 712 • Problems 712 • Case Study: Worldwide Chemical Company 715 • Internet Case Studies 715 • Bibliography 716 • Internet Resources 716

PART FOUR QUANTITATIVE MODULES

A. Decision-Making Tools 717

The Decision Process in Operations 718
Fundamentals of Decision Making 719
Decision Tables 720
Decision Making Under Uncertainty 720
Decision Making Under Risk 721
Decision Making Under Certainty 722
Expected Value of Perfect Information (EVPI) 723
Decision Trees 723
A More Complex Decision Tree 725

Summary 727 • Key Terms 727 • Using Excel OM for Decision Models 728 • Using POM for Windows 728 • Solved Problems 728 • Internet Exercises for Decision-Making Tools 729 • Discussion Questions 730 • Problems 730 • Case Study: Nigel Smythe's Heart Bypass Operation 735 • Case Study: Starting Right Corporation 735 • Internet Case Studies 736 • Bibliography 736

B. Linear Programming 739

Requirements of a Linear Programming Problem 741
Formulating Linear Programming Problems 742
Shader Electronics Example 742
Graphical Solution to a Linear Programming Problem 743
Graphical Representation of Constraints 743
In-Profit Line Solution Method 744
Corner-Point Solution Method 747
Sensitivity Analysis 749
Solving Minimization Problems 750
Linear Programming Applications 752
Production-Mix Example 753
Diet Problem Example 754
Production Scheduling Example 754
Labor Scheduling Example 756
The Simplex Method of LP 758

Summary 758 • Key Terms 759 • Using Excel Spreadsheets to Solve LP Problems 759 • Using POM for Windows to Solve LP Problems 760 • Solved Problems 760 • Internet Exercises for Linear Programming 763 • Discussion Questions 764 • Problems 764 • Data Base Application 771 • Case Study: Golding Landscaping and Plants, Inc. 772 • Internet Case Studies 773 • Bibliography 773

C. Transportation Models 775

Transportation Modeling 776
Developing an Initial Solution 778
The Northwest-Corner Rule 778
The Intuitive Lowest-Cost Method 779
The Stepping-Stone Method 780
Special Issues in Modeling 784
Demand Not Equal to Supply 784
Degeneracy 785

Summary 786 • Key Terms 786 • Using Excel OM to Solve Transportation Problems 787 • Using POM for Windows to Solve Transportation Problems 788 • Solved Problems 788 • Internet Exercises for

Transportation Problems 791 • Discussion Questions 791 • Problems 791 • Data Base Application 796 • Case Study: Custom Vans, Inc. 797 • Internet Case Studies 799 • Bibliography 799

D. Waiting-Line Models 801

Characteristics of a Waiting-Line System 803

Arrival Characteristics 803

Waiting-Line Characteristics 805

Service Characteristics 805

Measuring the Queue's Performance 807

Queuing Costs 808

The Variety of Queuing Models 809

Model A: Single-Channel Queuing Model with Poisson Arrivals and Exponential Service Times 810

Model B: Multiple-Channel Queuing Model 813

Model C: Constant Service Time Model 814

Model D: Limited Population Model 816

Other Queuing Approaches 819

Summary 819 • Key Terms 820 • Using Excel OM for Queuing 820 • Using POM for Windows for Queuing 820 • Solved Problems 821 • Internet Exercises for Waiting-Line Models 823 • Discussion Questions 823 • Problems 824 • Case Study: New England Castings 828 • Case Study: The Winter Park Hotel 830 • Internet Case Study 831 • Bibliography 831 • Internet Resources 831

E. Learning Curves 833

Learning Curves in Services and Manufacturing 835

Applying the Learning Curve 836

Arithmetic Approach 837

Logarithmic Approach 837

Learning-Curve Coefficient Approach 838

Strategic Implications of Learning Curves 840

Limitations of Learning Curves 841

Summary 841 • Key Terms 841 • Using Excel OM for Learning Curves 842 • Using POM for Windows for Learning Curves 842 • Solved Problems 842 • Internet Exercises for Learning Curves 843 • Discussion Questions 843 • Problems 844 • Case Study: SMT's Negotiation with IBM 846 • Bibliography 848

F. Simulation 849

What is Simulation? 851

Advantages and Disadvantages of Simulation 851

Monte Carlo Simulation 852

Simulation of a Queuing Problem 855

Simulation and Inventory Analysis 858

The Role of Computers in Simulation 861

Summary 862 • Key Terms 862 • Simulation with Excel Spreadsheets 862 • Using POM for Windows for Simulation 863 • Solved Problems 863 • Internet Exercises for Simulation 865 • Discussion Questions 865 • Problems 866 • Case Study: Alabama Airlines 873 • Internet Case Study 874 • Bibliography 874

APPENDIX I Normal Curve Areas A2

APPENDIX II Poisson Distribution Values A4

APPENDIX III Values of $e^{-\lambda}$ for Use in the Poisson Distribution A6

APPENDIX IV Table of Random Numbers A6

APPENDIX V Using Excel OM and POM for Windows A7

APPENDIX VI Solutions to Even-Numbered Problems A11
