Foreword by George Johnson, DBA, CFPIM xv

Preface xvii

Acknowledgments xxi

Introduction xxiii

## Chapter 1

---

### Inventory 1

Introduction 1

Inventory Types 3

*Raw Materials* 3

*Work in Process (WIP)* 5

*Semifinished Goods* 6

*Finished Goods* 7

*Distribution Inventory* 8

*Maintenance, Repair, and Operational Supplies (MRO)* 9

Inventory Functions 10

*Anticipation* 10

*Fluctuation* 10

*Lot size* 11

*Transportation* 14

*Hedge* 15

Managing Inventory	15
<i>Maintaining Inventory Record Accuracy</i>	16
<i>Physical Inventory</i>	17
<i>Cycle Counting</i>	18
Summary	19

## Chapter 2

---

### **The Production Plan 21**

Introduction	21
The Production-Planning Process	22
<i>Forecasting and the Production Plan</i>	25
<i>Representing the Production Plan</i>	26
Developing the Production Plan—1,2,3	34
<i>Step 1: Identify Product Families</i>	34
<i>Step 2: Select the Production Plan Unit of Measure</i>	35
<i>Step 3: List Major Customers</i>	36
<i>Step 4: Obtain Historical Sales Data</i>	36
<i>Step 5: Project the Sales Data into the Future</i>	36
<i>Step 6: Define Critical Resources and Calculate Requirements</i>	37
<i>Step 7: Do a Validity Check</i>	37
<i>Step 8: Have the Planning Meeting</i>	37
Summary	39

## Chapter 3

---

### **Master Production Schedule (MPS) 41**

Introduction	41
Independent and Dependent Demand	42
Understanding Lead Time	43
Developing the Forecast	47
<i>Simple Moving Average</i>	47
<i>Weighted Moving Average</i>	48
<i>Trend Analysis</i>	49
<i>Seasonality</i>	51
<i>Selecting a Method</i>	53

**Evaluating and Using the Forecast 54***Error 54**Bias 55**Standard Error 56**Safety Stock 57***Developing the Master Schedule 59***Step 1: Determine the Production Environment 59**Step 2: Calculate Total Demand 62**Step 3: Determine Critical Resources and Calculate Loads 62**Step 4: Measure Results 63***Summary 64****Chapter 4**

---

**Bills of Material and Resources 65****Introduction 65****Uses of Bills of Material and Resources 67***Defining Products and Resource Needs 67**Production Control 68**Marketing 69***Building the Bill of Material 69****Bills of Resource 73****Configuration Control 75***Making Configuration Changes 76**Planning Bills of Material 77**Pegging 79**Accuracy 80***Bill of Material Challenges 82****Summary 83****Chapter 5**

---

**Inventory Record Accuracy 85****Introduction 85****Inventory Record Accuracy 86****Cycle Counting 90***Cycle Counting Requirements 90*

Cycle Counting—1,2,3	92
<i>Step 1: Identify ABC groups</i>	92
<i>Step 2: Select a Control Group</i>	93
<i>Step 3: Count the Control Group Repeatedly</i>	93
<i>Step 4: Identify Process Issues</i>	95
<i>Step 5: Correct Process Issues</i>	95
<i>Step 6: Expand to Other Part Numbers</i>	95
<i>Step 7: Continue to Resolve Process Issues</i>	96
Selecting Parts to Count	96
<i>Calendar Frequency Using ABC Classification</i>	96
<i>Order Time</i>	97
<i>Receipt Time</i>	97
<i>Negative Inventory</i>	97
<i>Counting by Location</i>	98
Defining Accuracy	99
Expected Results of Cycle Counting	101
Summary	102

## Chapter 6

---

### **Materials Requirements Planning (MRP) 105**

Introduction	105
MRP System Development	106
Demand Patterns	107
Scheduling Alternatives	111
<i>Backward Scheduling</i>	111
<i>Forward Scheduling</i>	112
Planning the Unknown	113
MRP System Requirements	113
<i>Master Production Schedule</i>	113
<i>Inventory Records</i>	114
<i>Unique Item Identification</i>	114
Obtaining Quality Output	116
<i>Accurate File Data</i>	116
<i>Realistic Lead Times</i>	116
<i>Inventory Transactions</i>	117
<i>Order Independence</i>	117

MRP Output 118

Summary 118

## Chapter 7

---

### MRP System Definition Refinements 121

Introduction 121

MRP—A Closer Look 122

*Gross to Net Calculation* 123

*Low-Level Coding* 126

*Exception Messages* 128

*Pegging* 129

Net Change/Regenerative MRP 130

Lot Sizing 131

*Lot for Lot (LFL or Discrete)* 132

*Economic Order Quantity* 132

*Order Minimum/Multiple/Maximum* 136

*Period of Supply (POS)* 137

Summary 138

## Chapter 8

---

### Working with the Tools 141

Introduction 141

Planned Orders 142

Firm Planned Orders 143

Resolving Planner Messages 146

*Release Purchase Order* 146

*Release Manufacturing Order* 147

*Reschedule Orders* 149

Planner Message Strategy 149

*Prioritize Using Low-Level Codes* 150

*Bottom-up Replanning* 151

*Order Release Discipline* 153

*Trust Your Data* 154

*Address Underlying Issues* 154

Summary 155

**Chapter 9****Capacity Requirements Planning 157**

- Introduction 157
- Levels of Capacity Planning 158
- Using Capacity Planning 159
- Requirements for CRP 161
  - Units of Capacity* 161
  - Routings* 162
  - Schedule* 164
  - Shop Calendar* 166
- Capacity Management Measures 167
  - Available Capacity* 167
  - Utilization Factor* 167
  - Efficiency* 169
  - Rated Capacity* 169
- Scheduling Options 170
  - Backward Scheduling* 170
  - Forward Scheduling* 170
  - Infinite Loading* 171
  - Input/Output Control* 172
  - Finite Loading* 173
- Capacity Feedback and Control 175
- Summary 177

**Chapter 10****The Right Tools for the Job 179**

- Essential Tools 179
  - MRP* 181
  - MRP II* 182
  - Just in Time (JIT)* 184
- Tools of the 1990s 185
  - Theory of Constraints* 185
  - Computer-Integrated Manufacturing (CIM)* 187
  - Total Quality Management (TQM)* 188
  - ISO 9000* 188

Combining the Tools	189
Tool Application	190
<i>Remanufacturing</i>	190
<i>Continuous Process</i>	191
<i>Batch</i>	192
<i>Repetitive Shop</i>	193
<i>Project (Complex) Manufacturing</i>	194
<i>Job Shop</i>	195
Summary	197

## Chapter 11

---

### **System Selection and Implementation 199**

Introduction	199
Education	200
Training	201
Project Plan	202
<i>Determine Needs</i>	202
<i>Select Software</i>	203
<i>Implement the System</i>	205
Project Plan—Major Milestones	206
<i>Select Project Team</i>	206
<i>Install and Test Hardware</i>	207
<i>Attend System Training</i>	207
<i>Complete Conference Room Pilot</i>	207
<i>Set-up Security and Permissions</i>	209
<i>Conduct Company-Specific Pilot</i>	209
<i>Identify Beginning Pilot</i>	209
<i>Enter Static Data</i>	210
<i>Enter Dynamic Data</i>	211
<i>Document Policies and Procedures</i>	211
<i>Cutover</i>	211
<i>Celebrate</i>	213
Summary	213

**Chapter 12**

---

**Beginning the Journey 215**

Opening the Toolbox 215

Developing the Vision 219

Creating the Mission Statement 220

Building the Strategy 222

*Strengths* 223*Weaknesses* 223*Opportunities* 225*Threats* 226

Strategic Plan Focus 226

*Order Winners* 227*Order Qualifiers* 227*Nonissues* 228

Strategy Statement 229

Organizational Structure 229

Tactical Tools 230

Summary 231
