Foreword	v
Abstract	vi
Acknowledgments	vii
Abbreviations and Acronyms	viii
Executive Summary	1
Natural Gas Vehicles: Economic and Technical Context	1
Considerations for Policymakers	2
A Social Choice	5
Chapter 1 Why Consider Natural Gas Vehicles?	7
Natural Gas Vehicles: Some Basics	9
Reasons for Switching Fuel to Natural Gas	13
Chapter 2 International Experience with Natural Gas Vehicles: Cases of Argentina and New Zealand	15
Argentina	15
Background	15
Lessons from Argentina	17
New Zealand	17
Background	17
Lessons from New Zealand	20
Other International Experiences	21
Role of Government	21
Potential Government Assistance	21
Designing Fuel Tax	22

Chapter 3	Comparison of Natural Gas and Diesel Buses	27
Performance	27	
Emissions	29	
Fuel Quality	32	
International Experience	32	
United States	33	
Australia	35	
Canada	36	
France	37	
Transit Bus Industry in Developing Countries	37	
Chapter 4	Looking to the Future	41
Annex A: Emissions from Diesel Vehicles		45
References	49	
Boxes		
Box 1	An Example of the Economics of CNG Buses in the United States	34
Box 2	Phoenix Transit	36
Tables		
Table 1	Energy Content of Liquid and Gaseous Fuels	9
Table 2	International Natural Gas Vehicle Statistics	12
Table 3	Representative Fuel Prices	16
Table 4	Percent Market Share of Liquid and Gaseous Fuels	16
Table 5	Steps Taken by the Government of New Zealand	18
Table 6	Emissions Benefits of Replacing Diesel with CNG Vehicles	29
Table 7	Heavy-Duty Diesel Emission Standards (in g/kWh, with g/bhp-h in parentheses)	30
Table 8	Comparison of CNG and "Clean Diesel" Buses (g/km)	31
Figures		
Figure 1	Payback for Conversion from Fuel Cost Savings in Months	17
Figure A1	Particulate Emissions from New Vehicles in the United States	46
