

# Contents

<b>Foreword</b> .....	ix
<b>Abstract</b> .....	xi
<b>Acknowledgments</b> .....	xiii
<b>Abbreviations and Acronyms</b> .....	xv
<b>Executive Summary</b> .....	1
Technologies Included in the Report .....	1
Status of Clean Coal Technologies .....	2
Selection of Clean Coal Technology .....	6
Step 1: Select Fuel.....	6
Step 2: Determine Environmental Requirements.....	6
Step 3: Evaluate Technologies .....	6
Step 4: Perform Site-Specific Assessment If Needed .....	7
A Hypothetical Selection Case .....	7
Recommendations .....	10
<b>1. Introduction</b> .....	11
<b>2. Precombustion and In Situ Technologies</b> .....	13
Coal Cleaning .....	13
Conventional Physical Cleaning .....	13
Advanced Coal Cleaning .....	15
In Situ Technologies .....	16
Low-NO <sub>x</sub> Combustion Technologies.....	16
Sorbent Injection for SO <sub>2</sub> Control .....	19
<b>3. Postcombustion Technologies</b> .....	23
SO <sub>2</sub> Control Technologies .....	23
Duct Injection.....	23
Wet Scrubbers/Flue-Gas Desulfurization .....	26
Dry Scrubbers (Spray Dryers).....	30
NO <sub>x</sub> Control Technologies.....	32
Selective Noncatalytic Reduction for NO <sub>x</sub> Control.....	32
Selective Catalytic Reduction for NO <sub>x</sub> Control.....	34
Combined SO <sub>x</sub> /NO <sub>x</sub> Control .....	36

General Description .....	36
Particulate Removal Technologies.....	39
Electrostatic Precipitator Technology Enhancements.....	39
Fabric Filter (Baghouse) Technologies.....	40
Hot-Gas Cleanup Technologies .....	41
<b>4. Advanced Coal Utilization Technologies.....</b>	<b>45</b>
Fluidized-Bed Combustion .....	45
Atmospheric Fluidized-Bed Combustion.....	45
Pressurized Fluidized-Bed Combustion Technology.....	48
Coal Gasification Technologies .....	50
Integrated Gasification Combined-Cycle.....	50
Coproducts of Electricity and Clean Fuels .....	53
Advances in Pulverized-Coal Output and Efficiency .....	54
Technology Advances .....	54
Life Extension/Rehabilitation .....	55
Technology Readiness .....	56
Recommendation .....	56
<b>5. Relationship between Environmental Regulations and Technology Choice .....</b>	<b>57</b>
<b>6. Suitability of Clean Coal Technologies: A Screening Method .....</b>	<b>59</b>
Evaluation Criteria .....	59
Relevant Technologies .....	60
<b>7. Conclusions and Recommendations .....</b>	<b>63</b>
Technology Choices for Developing Countries.....	63
Technologies for Short-Term Applications .....	63
Technologies for Long-Term Applications.....	64
Additional Recommendations for Developing Countries.....	64
Recommendations for the World Bank.....	65
<b>Annex A Sample Environmental Regulations in Selected Countries.....</b>	<b>67</b>
<b>Annex B Equipment Suppliers .....</b>	<b>73</b>
<b>References .....</b>	<b>81</b>
