Foreword	v
Acknowledgments	vii
Acronyms and Abbreviations	viii
Overview	ix
1. Introduction	1
Purpose and Scope	3
The Principles for Water Resources Management	3
The Geographical Scale of Water Pollution Problems	5
Notes	6
2. Wastewater Management Practices	7
Industrial Countries	8
United States of America	9
European Union	10
Examples from Some Transition and Developing Countries	18
Central and Eastern Europe	18
Mexico	19
Brazil	20
Colombia	21
Overview	21
Notes	23
3. Conceptual Framework for Wastewater Management	25
Geographical Scale	27
Lead Agency	29
Objectives	32
Goal Setting	34
Strategy Formulation and Assessment	36
Existing Constraints	37
Process for Formulation and Assessment of Strategies	37
Selection, Implementation, and Monitoring	43

Overview: Key Elements and Steps for Reform	44
Notes	45

### Boxes

1 A Lead Agency: The Interstate Commission on the Potomac River Basin in the United States	30
2 Goal-Setting Process	35
3 Key Recommendation for Strategy Formulation	38
4 Content of the River Basin Assessment	39
5 Wastewater Management Modeling	40
6 Questions on Priority Investments and Managing-Implementation Options	42

### Figures

1 Wastewater and Water Resources Management: Similarities among the Main Elements of Proper Policies	2
2 Wastewater Management Practices and Education	8
3 Spain River Basin Agencies	14
4 France River Basin Agencies	16
5 Conceptual Framework	27
6 Identification of Objectives and Translation into Goals	32
7 Strategy Formulation, Selection, Implementation, and Evaluation	36
