|---|------|
| Foreword | ix |
| The Report Team | xiii |
| Acronyms and Abbreviations | xv |
| Overview and Summary | 1 |
| Summary | 4 |
| Policy Implications and Stylized Applications | 23 |
| The Next Generation of Research | 29 |
| 1. Making Finance Effective | 31 |
| How Finance Helps | 34 |
| Structure | 44 |
| Financial Infrastructure | 55 |
| Access | 65 |
| Conclusions | 71 |
| 2. Preventing and Minimizing Crises | 75 |
| Why Finance Has Been So Fragile...and Remains That Way | 78 |
| Regulating Banks: Harnessing the Market | 90 |
| Financial Sector Safety Nets | 104 |
| Conclusions | 118 |
| | 123 |
| 3. Government Failure in Finance | |
| Bureaucrats as Bankers? | 124 |
| Governments as Caretakers | 140 |
| Conclusions | 153 |
| | 157 |
| 4. Finance without Frontiers? | |
| Capital Account Liberalization: Costs and Benefits | 160 |
| Financial Services: Allowing Foreign Provision | 162 |
| Opening the Equity Market | 169 |
| Debt Flows and Interest and Exchange Rates | 179 |
| Into the Future: Technology and Communications | 190 |
| Conclusions | 194 |
| References | 197 |
| Boxes | |
| 1.1 Using regression coefficients to infer policy effects | 38 |
| 1.2 Finance as an export sector | 43 |
| 1.3 Time, income, and inflation: stylized facts about financial depth | 47 |
| 2.1 Poverty and crises | 76 |
| 2.2 Narrow banking | 91 |
| 2.3 Subordinated debt proposals | 103 |
| 2.4 The rise of deposit insurance? | 106 |
| 2.5 Implicit value of deposit insurance to the bank's shareholders | 112 |

| | |
|--|-----|
| 3.1 Political economy and financial policy | 129 |
| 3.2 Can bank privatization be sustained? | 132 |
| 3.3 The rise, reprieve, and fall of state banks in Africa | 134 |
| 3.4 Looting in the Czech Republic | 138 |
| 3.5 Intervening sets the stage for the next crisis | 145 |
| 3.6 Lessons from the Reconstruction Finance Corporation | 150 |
| 3.7 The Swedish experience: a Saab in every garage? | 152 |
| 4.1 Depository receipts and country funds | 163 |
| 4.2 Poor sequencing of Korea's financial liberalization | 181 |
| 4.3 Theory of twin crises--currency and banking | 185 |
| 4.4 Derivatives and capital control evasion | 186 |
| 4.5 Dollarization-asset price and pass-through effects | 188 |
| Figures | |
| 1 Financial depth and per capita income | 5 |
| 2 Financial depth and growth | 6 |
| 3 Bank-to-market ratio and per capita GDP | 7 |
| 4 East Asia poverty before and after the financial crises | 11 |
| 5 Government ownership of bank assets and per capita income | 15 |
| 6 National financial systems ranked by size | 19 |
| 7 Comparing the share of foreign and state ownership in crisis and non-crisis countries | 21 |
| 1.1 Financial development and per capita income | 35 |
| 1.2 Financial development over time | 36 |
| 1.3 Naive and modeled impact of financial development on growth | 37 |
| 1.4 Financial depth and macroeconomic volatility | 39 |
| 1.5 Relative contribution of financial development to productivity and capital intensity | 40 |
| 1.6 Three measures, of the relative development of banks and organized securities markets | 45 |
| 1.7 Average leverage of listed firms in industrial and developing economies | 50 |
| 1.8 Intermediation spreads | 51 |
| 1.9 Measures of stock market and banking development | 52 |
| 1.10 Market value of family-owned firms as a percentage of the total equity market value of the top 20 firms | 54 |
| 1.11 "And the owner is...the Suharto family group" | 55 |
| 2.1 .Total fiscal costs (increases in the stock of public debt) relative to GDP in the year of crisis | 83 |
| 2.2 Estimates of fiscal cost of and output dip for 39 banking crises | 85 |
| 2.3 Volatility by region, 1970-99 86 2.4 Volatility in asset markets | 87 |
| 2.5 Classification of substandard loans, 1997 | 95 |
| 2.6 Subordinated debt in Argentina, 1996-99 | 104 |
| 2.7 Explicit deposit insurance systems: the rise of deposit insurance around the world, 1934-99 | 105 |
| 2.8 Deposit insurance coverage | 108 |
| 2.9 Deposit insurance: net benefits | 114 |
| 3.1 State ownership in banking, 1998-99 | 125 |

| | |
|--|-----|
| 3.2 Government ownership of bank assets | 126 |
| 3.3 Nonperforming loans, Argentina, 1991 | 132 |
| 3.4 Lending to state-owned enterprises in Argentina | 133 |
| 3.5 Government ownership of banks during the East Asia crisis | 141 |
| 3.6 Stylized evolution of three banks through a crisis: sound, salvageable, and doomed | 149 |
| 4.1 Share of developing economies in aggregate world money stock | 159 |
| 4.2 Increase in the market share of majority foreign-owned banks, selected countries, 1994 and 1999 | 165 |
| 4.3 Estimated impact of foreign bank entry on domestic bank performance | 167 |
| 4.4 Stock of foreign holdings of (gross) debt and equity, 1997 | 170 |
| 4.5 Equity market liberalization dates | 172 |
| 4.6 Impact of liberalization on the amplitude of equity price cycles | 174 |
| 4.7 Mexico country fund discount, 1993-99 | 177 |
| 4.8 Real treasury bill yields for industrial and developing countries | 183 |
| Tables | |
| 1.1 Effects on credit availability of adopting a negative -only credit scoring model for various default rates | 70 |
| 2.1 Selected financial crashes | 80 |
| 2.2 Typical balance sheet | 94 |
| 3.1 Estimated individual impact of an accommodating approach to resolution policies | 143 |
| 4.1 Real interest rates | 183 |
