

Contents

Preface, *ix*
A Special Note to the Student, *xiii*

PART ONE

Mechanics, 2

1 Introduction and Measurements, 5

- 1.1 Historical Background, 5
- 1.2 The Realm of Physics, 8
- 1.3 Physics Is a Science of Measurement, 8
- 1.4 The Fundamental Quantities, 9
- 1.5 The Standard of Length, 10
- 1.6 The Standard of Mass, 13
- 1.7 The Standard of Time, 14
- 1.8 The Standard of Electrical Charge, 15
- 1.9 Systems of Units, 16
- 1.10 Conversion Factors, 17
- 1.11 Derived Quantities, 19

The Language of Physics, 20

Questions and Problems for Chapter 1, 20

Interactive Tutorials, 21

2 Vectors, 23

- 2.1 Introduction, 23
- 2.2 The Displacement, 23
- 2.3 Vector Algebra—The Addition of Vectors, 24
- 2.4 Vector Subtraction—The Negative of a Vector, 25
- 2.5 Addition of Vectors by the Polygon Method, 25
- 2.6 Review of Trigonometry, 25
- 2.7 Resolution of a Vector into Its Components, 28
- 2.8 Determination of a Vector from Its Components, 29
- 2.9 The Addition of Vectors by the Component Method, 31

The Language of Physics, 35

Summary of Important Equations, 35

Questions and Problems for Chapter 2, 35

Interactive Tutorials, 37

3 Kinematics—The Study of Motion, 39

- 3.1 Introduction, 39
- 3.2 Experimental Description of a Moving Body, 41
- 3.3 A Body Moving at Constant Velocity, 42
- 3.4 A Body Moving at Constant Acceleration, 43
- 3.5 The Instantaneous Velocity of a Moving Body, 45
- 3.6 The Kinematic Equations in One Dimension, 46
- 3.7 The Freely Falling Body, 51
- 3.8 Determination of Your Reaction Time by a Freely Falling Body, 54
- 3.9 Projectile Motion in One Dimension, 55
- 3.10 The Kinematic Equations in Vector Form, 61
- 3.11 Projectile Motion in Two Dimensions, 62

“Have you ever wondered. . . ?”

*An Essay on the Application of Physics
Kinematics and Traffic Congestion, 70*

The Language of Physics, 73

Summary of Important Equations, 73

Hints for Problem Solving, 74

Questions and Problems for Chapter 3, 74

Interactive Tutorials, 77

4 Newton's Laws of Motion, 79

- 4.1** Introduction, 79
- 4.2** Newton's First Law of Motion, 80
- 4.3** Newton's Third Law of Motion, 81
- 4.4** Newton's Second Law of Motion, 82
- 4.5** Applications of Newton's Second Law, 89
- 4.6** Friction, 101
- 4.7** Applications of Newton's Second Law Taking Friction into Account, 105
- 4.8** Determination of the Coefficients of Friction, 111

"Have you ever wondered. . . ?"
An Essay on the Application of Physics
The Physics in Sports, 112

The Language of Physics, 113
Summary of Important Equations, 114
Questions and Problems for Chapter 4, 114
Interactive Tutorials, 118

5 Equilibrium, 121

- 5.1** The First Condition of Equilibrium, 121
- 5.2** The Concept of Torque, 126
- 5.3** The Second Condition of Equilibrium, 129
- 5.4** Equilibrium of a Rigid Body, 131
- 5.5** Examples of Rigid Bodies in Equilibrium, 131

"Have you ever wondered. . . ?"
An Essay on the Application of Physics
Traction, 147

The Language of Physics, 148
Summary of Important Equations, 149
Questions and Problems for Chapter 5, 149
Interactive Tutorials, 154

6 Uniform Circular Motion, Gravitation, and Satellites, 155

- 6.1** Uniform Circular Motion, 155
- 6.2** Centripetal Acceleration and Its Direction, 156
- 6.3** Angles Measured in Radians, 156
- 6.4** The Magnitude of the Centripetal Acceleration, 157
- 6.5** The Centripetal Force, 160
- 6.6** The Centrifugal Force, 161
- 6.7** Examples of Centripetal Force, 162
- 6.8** Newton's Law of Universal Gravitation, 170
- 6.9** Gravitational Force between Two 1-kg Masses, 171
- 6.10** Gravitational Force between a 1-kg Mass and the Earth, 172
- 6.11** The Acceleration Due to Gravity and Newton's Law of Universal Gravitation, 173
- 6.12** Variation of the Acceleration Due to Gravity, 174
- 6.13** Acceleration Due to Gravity on the Moon and on Other Planets, 175

- 6.14** Satellite Motion, 176
- 6.15** The Geosynchronous Satellite, 179

"Have you ever wondered. . . ?"
An Essay on the Application of Physics
Space Travel, 180

The Language of Physics, 183
Summary of Important Equations, 184
Questions and Problems for Chapter 6, 184
Interactive Tutorials, 187

7 Energy and Its Conservation, 189

- 7.1** Energy, 189
- 7.2** Work, 189
- 7.3** Power, 192
- 7.4** Gravitational Potential Energy, 194
- 7.5** Kinetic Energy, 196
- 7.6** The Conservation of Energy, 198
- 7.7** Further Analysis of the Conservation of Energy, 203

"Have you ever wondered. . . ?"
An Essay on the Application of Physics
The Great Pyramids, 207

The Language of Physics, 209
Summary of Important Equations, 210
Questions and Problems for Chapter 7, 210
Interactive Tutorials, 214

8 Momentum and Its Conservation, 215

- 8.1** Momentum, 215
- 8.2** The Law of Conservation of Momentum, 216
- 8.3** Examples of the Law of Conservation of Momentum, 218
- 8.4** Impulse, 222
- 8.5** Collisions in One Dimension, 223
- 8.6** Collisions in Two Dimensions—Glancing Collisions, 232

The Language of Physics, 235
Summary of Important Equations, 236
Questions and Problems for Chapter 8, 236
Interactive Tutorials, 240

9 Rotational Motion, 241

- 9.1** Introduction, 241
- 9.2** Rotational Kinematics, 241
- 9.3** The Kinetic Energy of Rotation, 247
- 9.4** The Moment of Inertia, 248
- 9.5** Newton's Laws for Rotational Motion, 250
- 9.6** Rotational Dynamics, 251
- 9.7** Angular Momentum and Its Conservation, 259

- 9.8 Combined Translational and Rotational Motion
Treated by the Law of Conservation of Energy, 264
- 9.9 Work in Rotational Motion, 267

“Have you ever wondered. . . ?”

An Essay on the Application of Physics

Attitude Control of Airplanes and Spaceships, 268

The Language of Physics, 274

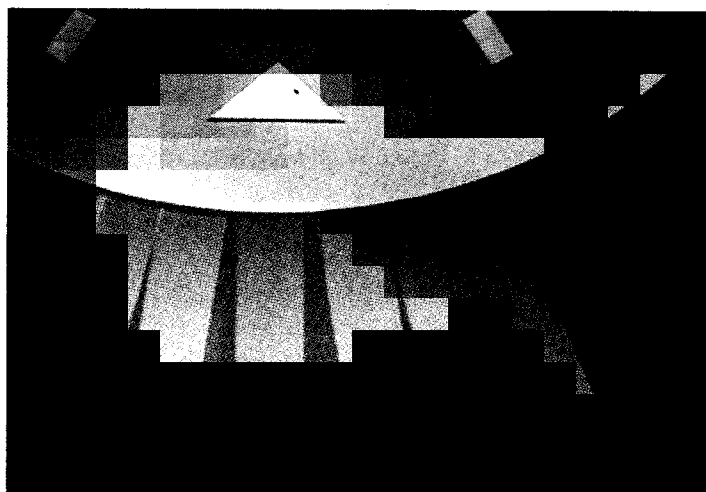

Summary of Important Equations, 274

Questions and Problems for Chapter 9, 274

Interactive Tutorials, 279

PART TWO

Vibratory Motion, Wave Motion, and Fluids, 280

10 Elasticity, 283

- 10.1 The Atomic Nature of Elasticity, 283
- 10.2 Hooke's Law—Stress and Strain, 284
- 10.3 Hooke's Law for a Spring, 287
- 10.4 Elasticity of Shape—Shear, 288
- 10.5 Elasticity of Volume, 291

The Language of Physics, 292

Summary of Important Equations, 292

Questions and Problems for Chapter 10, 293

Interactive Tutorials, 295

11 Simple Harmonic Motion, 297

- 11.1 Introduction to Periodic Motion, 297
- 11.2 Simple Harmonic Motion, 297
- 11.3 Analysis of Simple Harmonic Motion—The Reference Circle, 299

- 11.4 The Potential Energy of a Spring, 306
- 11.5 Conservation of Energy and the Vibrating Spring, 307
- 11.6 The Simple Pendulum, 309
- 11.7 Springs in Parallel and in Series, 312

The Language of Physics, 314

Summary of Important Equations, 315

Questions and Problems for Chapter 11, 315

Interactive Tutorials, 318

12 Wave Motion, 321

- 12.1 Introduction, 321
- 12.2 Mathematical Representation of a Wave, 324
- 12.3 The Speed of a Transverse Wave on a String, 329
- 12.4 Reflection of a Wave at a Boundary, 331
- 12.5 The Principle of Superposition, 336
- 12.6 Standing Waves—The Vibrating String, 339
- 12.7 Sound Waves, 346
- 12.8 The Doppler Effect, 350
- 12.9 The Transmission of Energy in a Wave and the Intensity of a Wave, 356

“Have you ever wondered. . . ?”

An Essay on the Application of Physics

The Production and Reception of Human Sound, 358

The Language of Physics, 362

Summary of Important Equations, 363

Questions and Problems for Chapter 12, 363

Interactive Tutorials, 365

13 Fluids, 367

- 13.1 Introduction, 367
- 13.2 Density, 367
- 13.3 Pressure, 368
- 13.4 Pascal's Principle, 376
- 13.5 Archimedes' Principle, 378
- 13.6 The Equation of Continuity, 382
- 13.7 Bernoulli's Theorem, 385
- 13.8 Application of Bernoulli's Theorem, 388

“Have you ever wondered. . . ?”

An Essay on the Application of Physics

The Flow of Blood in the Human Body, 392

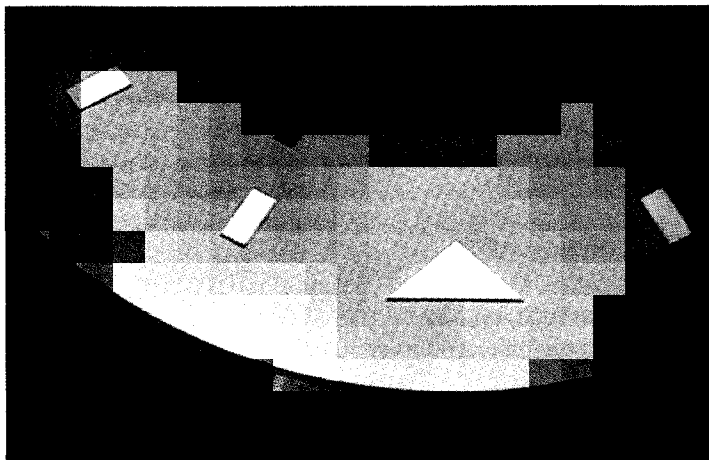

The Language of Physics, 395

Summary of Important Equations, 396

Questions and Problems for Chapter 13, 396

Interactive Tutorials, 399

Thermodynamics, 400

14 Temperature and Heat, 403

- 14.1 Temperature, 403
- 14.2 Heat, 408
- 14.3 Specific Heat, 409
- 14.4 Calorimetry, 411
- 14.5 Change of Phase, 413

The Language of Physics, 420
Summary of Important Equations, 420
Questions and Problems for Chapter 14, 420
Interactive Tutorials, 423

15 Thermal Expansion and the Gas Laws, 425

- 15.1 Linear Expansion of Solids, 425
- 15.2 Area Expansion of Solids, 427
- 15.3 Volume Expansion of Solids and Liquids, 429
- 15.4 Volume Expansion of Gases: Charles' Law, 430
- 15.5 Gay-Lussac's Law, 433
- 15.6 Boyle's Law, 434
- 15.7 The Ideal Gas Law, 434
- 15.8 The Kinetic Theory of Gases, 438

"Have you ever wondered. . . ?"
An Essay on the Application of Physics
Relative Humidity and the Cooling of the Human
Body, 445

The Language of Physics, 447
Summary of Important Equations, 448
Questions and Problems for Chapter 15, 448
Interactive Tutorials, 450

16 Heat Transfer, 451

- 16.1 Heat Transfer, 451
- 16.2 Convection, 451
- 16.3 Conduction, 457
- 16.4 Radiation, 465

"Have you ever wondered. . . ?"
An Essay on the Application of Physics
The Greenhouse Effect and Global Warming, 469

The Language of Physics, 473
Summary of Important Equations, 473
Questions and Problems for Chapter 16, 474
Interactive Tutorials, 477

17 Thermodynamics, 479

- 17.1 Introduction, 479
- 17.2 The Concept of Work Applied to a Thermodynamic System, 479
- 17.3 Heat Added to or Removed from a Thermodynamic System, 483
- 17.4 The First Law of Thermodynamics, 485
- 17.5 Some Special Cases of the First Law of Thermodynamics, 492
- 17.6 The Gasoline Engine, 493
- 17.7 The Ideal Heat Engine, 495
- 17.8 The Carnot Cycle, 496
- 17.9 The Second Law of Thermodynamics, 498
- 17.10 Entropy, 499
- 17.11 Statistical Interpretation of Entropy, 501

"Have you ever wondered. . . ?"
An Essay on the Application of Physics
Meteorology—The Physics of the Atmosphere, 505

The Language of Physics, 509
Summary of Important Equations, 510
Questions and Problems for Chapter 17, 510
Interactive Tutorials, 512

- Epilogue, E-1
- Appendix A Conversion Factors, A-1
- Appendix B Useful Mathematical Formulas, A-2
- Appendix C Proportionalities, A-5
- Appendix D Physical Constants, A-7
- Appendix E Table of the Elements, A-8
- Appendix F Vector Multiplication, A-10
- Appendix G Answers to Odd-Numbered Problems, A-18
- Bibliography, B-1
- Credits, C-1
- Index, I-1
